Robinson,2000 The Church has historically played a significant role in the development and preservation of African American
families Despite the tremendous difficulties experienced by African Americans as a result of slavery and the racism that has
heretofore plagued American society the church and family remain by virtually all accounts the two most enduring
institutions in African American life The Black Church and family have been seen as a union that is indelibly connected with
the life of either inextricably linked to the strength of the other As in the past the future vitality and preservation of African
American family life will depend largely upon how churches wholistically address the needs that exist within the family
context African American family preservation involves the appropriation of those spiritual and temporal resources including
values traditions methods processes systems philosophies and theologies which will result in the ongoing sustainment vitality
and valuation of family structures and communities This book offers a framework for the church s engagement in the task of
African American family preservation The primary objective is to develop a model that can be used by churches to support
the critical needs of African American families The overall concern involves discovering ways in which we might better
understand the contemporary African American church in relationship to the families which comprise it and the community
in which it resides The objective here is to ascertain beyond any particular denominational distinctive or theological strand
the effects of these and other theologies upon the Black church and family life **Weekly Record** ,1978
