A number of different nations have experienced the fallout of these events, calling into question issues of accountability and reform in public management. The *Handbook of Research on Modernization and Accountability in Public Sector Management* is an essential scholarly publication that focuses on responsibility within public sector institutions and the importance of these institutions being ethical, transparent, and rigorous. ### **British Concepts of Heroic "Gallantry" and the Sixties Transition**

Matthew J. Lord, 2021-05-03. This book examines the relationship between concepts of heroic gallantry as projected by the British honours system and the sociocultural, political, military, and international transitions of the supposed Sixties cultural revolution. In so doing, it considers how a conservative, hierarchical, and state-orientated concept both evolved and endured during a period of immense change in which traditional assumptions of deference to elites were increasingly challenged. Covering the period often defined as The Long Sixties from 1955-79, this study concentrates on four distinct transitions undergone by both state and non-state gallantry awards, including developments within the welfare state, class and gender discrimination, counterinsurgency, and decolonisation. It ultimately sheds fresh light upon the importance of postwar decades to the continued evolution of concepts of gallantry and heroism in British culture, using a range of underexplored government and media archives. It will be of interest to scholars, students, and general researchers of heroism in modern Britain, the Sixties revolution, postwar military history, and both the social and political evolution of British honours, decorations, and medals.

**Performance Auditing and the Modernisation of Government** Organisation for Economic Co-operation and Development. Public Management Service, 1996. This publication considers the relationship between performance auditing and public sector modernisation and the extent to which performance auditing could or should improve the performance of public sector organisations.

Bowdoin College. Bureau for Research in Municipal Government, 1918. *House of Lords - Persuasion and Power in the Modern World - HL 150*. Great Britain: Parliament: House of Lords: Select Committee on Soft Power and the UK's Influence, 2014-03-28. While strong Armed Forces remain the bedrock in safeguarding national interests, new kinds of power projection are now required, both to make the use of force (hard power) more effective and in some instances to replace it with the deployment of what has been labelled soft power. Soft power involves getting what a country wants by influencing other countries to want the same thing through attraction, persuasion, and co-option. The information and digital revolution has transformed international relations and

foreign policy meaning that the UK must win over new and wider audiences to its point of view The UK must change the way it interacts with other nations and communities and is well equipped to do so Soft power methods of exercising international influence must now be combined with older approaches in order to secure and promote the UK s interests and purposes To ensure that the exercise of soft power takes its place at the core of government policy making the Committee calls for the creation of a new strategic unit at the heart of Government Its purpose would be to assist the Prime Minister in ensuring all Departments understand the importance of soft power and of upholding the UK s reputation and in swiftly counteracting any potentially damaging policies or messages While investing in soft power takes time to produce results the Committee makes a number of recommendations including that BBC World Service s budget is not reduced any further in real terms and that the British Council is properly resourced to encourage the UK s creative industries
