Not In My Backyard:

Not in My Backyard Brian Balogh, 2024-01-02 How a woman led citizens group beat a Southern political machine by enlisting federal bureaucrats and judges to protect their neighborhood from unchecked economic development This social history of local political activism tells the story of the decades long fight to save Green Springs Virginia illuminating the economic tradeoffs of protecting the environment the origins of NIMBYism the changing nature of local control and the surprising power of history to advance public policy Rae Ely faced long odds when she launched a campaign in 1970 to stop a prison then a strip mine in Green Springs The local political machine supported both projects promising jobs for impoverished Louisa County Virginia But Ely and her allies prevailed by repurposing the same tactics used by the Civil Rights movement the appeal to federal agencies and courts to circumvent local control and by using new historical interpretations to create the first rural National Historic Landmark District The Green Springs protesters fought to preserve the historic character of their neighborhood and the surrounding environment in a quest that epitomized the conflict in late twentieth century America between unbridled economic development for all and protecting the quality of life for an economically privileged few Ely s tactics are now used by neighborhood groups across the nation even if they have been applied in ways she never intended to resist any form of development *Not in My Backyard* United States Commission on Civil Rights, 2003

Brion,1991-07-25 This pioneering study explores the problems of politics and law that lie behind the growing phenomenon of NIMBY Not In My Back Yard a stance taken by residential property owners attempting to keep various types of facilities out of their neighborhoods Denis J Brion argues that the pejorative connotation that NIMBY carries is both unfortunate and unwarranted and seeks to expose the underlying problems for which NIMBY is a symptom In particular Brion examines the impact of siting decisions on those who will be the neighbors of a potential project and the political gridlock that so often results when they become aware of the nature of this impact The discussion is illuminated by a review of the journalistic accounts of particular episodes chosen to demonstrate the pervasiveness and complexity of the NIMBY phenomenon Divided into three sections the study begins by analyzing how a system of public decisionmaking founded on the ideal of participatory democracy and built on the structure of representative government is peculiarly subject to capture by small groups intent on pursuing their own narrow agendas The result Brion shows is often allocational choices which yield benefits to few and harm to many In Part II he demonstrates the failure of the public remedial process to provide traditional common law remedies to those harmed by Locally Unwanted Land Uses LULUs Brion then looks at the consequences of this remedial failure from both traditional and non traditional points of view in order to provide a basis for devising an approach to the problems that underly the NIMBY syndrome The concluding section proposes a solution that involves both expanding the focus of political and constitutional debate to include the notion of communality and narrowing the traditional conception of right to property As a unique full length treatment of the subject this study makes a significant contribution to the ongoing debate over the NIMBY phenomenon and its consequences *New York Court of Appeals.
