Universal Truth Dr. Peter C. Rogers, 2011-10-18 This book unlocks many of the mysteries held throughout ancient times by introducing the reader to concepts and beliefs predating organized religion. Universal Truth is an expose of hidden knowledge and truths practiced by adepts and spiritual masters since the beginning of time as we know it. In this book, Dr. Rogers researches countless subjects dealing with metaphysical teachings to help readers gain a better understanding of the world in which we live and the laws that govern it. Universal Truth is the key to the kingdom for anyone who's not afraid to venture beyond the known into a world of secrecy and mystery that lay hidden from the common person. But be warned, this is not a book for the religious at heart nor the conditioned thinker but rather this is a book for the open-minded and the brave-spirited. You won't believe what's been hidden from you by the Church, the world governments, and the powers that be. This is truly a masterpiece and a cornucopia of light for the ardent seeker of wisdom.

Earth's Catastrophic Past and Future William Hutton, Jonathan Eagle, 2004-08 Edgar Cayce America's best documented psychic gave upwards of 44 readings that dealt with lost continents, geophysical changes to Earth beginning 1958-1998, and a pole shift due to begin about now. In this book, geologist William Hutton and researcher Jonathan Eagle look for correspondences between results of geophysical research studies and psychic descriptions of prehistoric catastrophes. They also seek scientifically to test readings/predictions of catastrophic Earth changes while investigating the following fascinating subjects: Development and calibration of a comprehensive pole shift model; The countries predicted to be most affected by a sudden 1-pole shift; The geologic trend for a mineralized gold vein at Bimini, Bahamas; The authors' discoveries of correlations between a 2002 arctic earthquake and the eruption of torrid area volcanoes; the dropping of atom bombs in 1945 and a significant increase in sunspots following; and the peaceable nature of Europe in 1645-1715 and the period's near total lack of sunspots. Cayce readings implied or predicted all three phenomena. The first ever analysis of the sources of Cayce's channeled readings including a ranking of the veracity and reliability of the most important Earth changes and pole shift readings; Moralistic reasons for future catastrophic geophysical changes to Japan, China, and America; Locations of post-pole shift safety lands in Canada and America; Locations of the records of the Atlantean civilization to be found when Earth changes begin; How to awaken to the New Cycle presently opening before humanity; Evidence for Atlantis in the mid-Atlantic ridge area and for Lemuria or Mu in the Pacific; The consuming religious war in which we find ourselves and an answer to world conditions today; Visions of an imminent Age ending fire as found in a Cayce reading in a channeled book by Phyllos the Tibetan and in

the 1960s visions of girls at Garabandal Spain Doubtful interpretations of Earth changes and pole shift readings advanced by managers and writers of Cayce s legacy organization the Association for Research and Enlightenment Inc From the Foreword by the Editor The acid test of pole shift and other Earth change predictions is their scientific credibility If true momentous societal and political changes are imminent The geopolitical map of the world will be redrawn The authors are exploring the transition from the end of one Age to the beginning of another
