Cupcakes, Pinterest, and Ladyporn Elana Levine, 2015-09-30 Media expansion into the digital realm and the continuing segregation of users into niches has led to a proliferation of cultural products targeted to and consumed by women Though often dismissed as frivolous or excessively emotional feminized culture in reality offers compelling insights into the American experience of the early twenty first century Elana Levine brings together writings from feminist critics that chart the current terrain of feminized pop cultural production Analyzing everything from Fifty Shades of Grey to Pinterest to pregnancy apps contributors examine the economic technological representational and experiential dimensions of products and phenomena that speak to and about the feminine As these essays show the imperative of productivity currently permeating feminized pop culture has created a generation of texts that speak as much to women's roles as public and private workers as to an impulse for fantasy or escape Incisive and compelling Cupcakes Pinterest and Ladyporn sheds new

light on contemporary women's engagement with an array of media forms in the context of postfeminist culture and neoliberalism

**Pluralizing Humanism** Slavica Jakelić, 2025-02-28 Humanism is appealed to today whenever we want to tackle the conditions of dehumanization in the contemporary world. But for humanism to be viable in the twenty-first century, this book argues, it needs to be pluralized. Employing theoretical, historical, and sociological arguments, this book moves beyond the discourse of critique. It engages theories of religion and secularism as well as postmodern, postcolonial, and decolonial critiques of Western humanist projects to uncover the ideas and practices of religious and secular humanisms when they challenge dehumanization in the pursuit of conditions of flourishing for all. Through studies of the Solidarity movement in Poland and the anti-apartheid movement in South Africa, the book demonstrates the centrality of humanist traditions to the emergence of religious, secular solidarities that transformed the political landscapes of the world. By highlighting the instances in which humanisms functioned as checks on each other's absolutist claims, the book contends that humanisms supply a constructive path for addressing the challenges of our time: a time of radically divided societies and intolerant, even violent forms of nationalism. A challenge to the critiques of humanism that seek to identify it solely as the legacy of the West as anti-religious discourse or relegate it to the domain of power constellations, *Pluralizing Humanism* highlights the rich plurality of humanist discourses and the need for their mutual engagements. It points to humanist ideals as constitutive of politics that can guide our human power because they are irreducible to it. As such, this book will appeal to social scientists, social theorists, religious studies scholars, and ethicists with interests in religion, secularism, social movements, and humanist thought and practice.

**The Oxford Handbook of Religion, Conflict, and Peacebuilding** Atalia Omer, R. Scott Appleby, David Little, 2015-01-28 This volume provides a comprehensive and interdisciplinary account of the scholarship on religion, conflict, and peacebuilding. Looking far beyond the traditional parameters of the field, the contributors engage deeply with the legacies of colonialism, missionary activism, secularism, orientalism, and liberalism as they relate to the discussion of religion, violence, and nonviolent transformation and resistance. Featuring numerous case studies from various contexts and traditions, the volume is organized thematically into five different parts. It begins with an up-to-date mapping of scholarship on religion and violence and religion and peace. The second part explores the challenges related to developing secularist theories on peace and nationalism, broadening the discussion of violence to include an analysis of cultural and structural forms. In the third section, the chapters explore controversial topics such as religion and development, religious militancy, and the freedom of religion as a keystone of peacebuilding. The fourth part locates notions of peacebuilding in spiritual practice by focusing on constructive resources within various traditions, the transformative role of rituals, youth, and interfaith activism in American university campuses, religion and solidarity activism, scriptural reasoning as a peacebuilding practice, and an extended reflection on the history and legacy of missionary peacebuilding. The volume concludes by looking to the future of peacebuilding scholarship and the possibilities for new growth and progress. Bringing together a diverse

array of scholars this innovative handbook grapples with the tension between theory and practice cultural theory and the legacy of the liberal peace paradigm offering provocative elastic and context specific insights for strategic peacebuilding processes *Prelude to the Final Solution* Phillip T.
