

The book cover features a background image of a dense forest of tall, thin trees, possibly birches, with their branches and leaves creating a complex, textured pattern. The overall color palette is a range of blues, from deep navy to lighter, misty tones, giving it a serene and somewhat somber atmosphere.

MORALITY

Does "God" Make a Difference?

WAYNE G. JOHNSON

Morality Does God Make A Difference

Wyndy Corbin Reuschling

Morality Does God Make A Difference:

Morality Wayne G. Johnson, 2005 Explores how belief or non belief in God shapes the content of morality Neither supporting nor attacking religion based morality this work shows why belief in God makes a difference for good or ill In contrast to those who hold that there is a conflict between practical rationality seeking one s own fulfillment and moral rationality moral duty the author demonstrates that all classic moral systems religious or otherwise deny this conflict by claiming that the moral pathway is also the fulfilling pathway Traditional religious believers claim that the truly fulfilling life culminates in eternal fellowship with God If belief in God is rejected other views of human fulfillment are constructed

Understanding Morality Wayne Gustave Johnson, 2022-02-04 This book explains why moral systems necessarily develop and why they take the various forms that they do Johnson argues that moral systems are best understood as attempts both to seek out ways of living a fulfilling human life and also to find ways of relating to others who also seek a fulfilling life Philosophers generally agree that the moral pathway is also the fulfilling pathway However the moral pathways advocated and the kind of fulfillments envisioned depend upon beliefs about human nature as well as beliefs about the ultimate nature of things a worldview Aristotle Epicurus Saint Augustine and Friedrich Nietzsche for instance had radically varying views about what constitutes a fulfilling life Johnson argues that the moral quest involves properly arbitrating among the often competing wants needs and desires pursued by human beings Not all such wants needs and desires can be fulfilled some must necessarily go unfulfilled This implies that a vast number of human choices are moral choices For instance who eats and who does not Johnson gives no moral advice His aim is to show the reader the nature of the moral choices they necessarily make

Reviving Evangelical Ethics Wyndy Corbin Reuschling, 2008-04-01 Classic theories of Aristotle Kant and Mill have influenced Christian thought in morality and ethics for centuries But they can go only so far Wyndy Corbin Reuschling writes in *Reviving Evangelical Ethics* While the philosophers approach to three key elements virtue duty and utility have been used widely in forming ethical and moral practices Corbin Reuschling sees spiritual danger in their limitations She probes deeply to deconstruct each philosophy then reconstructs a broader biblically based framework for personal and group ethics This introductory text provides helpful biblical and theological reflection for students of Christian ethics

Does the Pro-Life Worldview Make Sense? Stephen Kershner, 2017-10-03 This book looks at a family of views involving the pro life view of abortion and Christianity These issues are important because major religious branches for example Catholicism and some large branches of Evangelicalism and leading politicians assert or are committed to the following a it is permissible to prevent some people from going to hell b abortion prevents some people from going to hell and c abortion is wrong They also assert or are committed to the following d it is permissible to use defensive violence to prevent people from killing innocents e doctors who perform abortions kill innocents and f it is wrong to use defensive violence against doctors who perform abortions Stephen Kershner argues that these and other principles are inconsistent

Along the way he explores the ways in which theories of hell right forfeiture and good consequences relate to each other and the above inconsistencies **The Moral Adjustments of the Christian Life** George Allen Pegram,1915 [The Law of Love and Love as a Law, Or, Christian Ethics](#) Mark Hopkins,1877 *Christian Fruit--Jewish Root* John D. Garr,2015-04-13 Christian Fruit Jewish Root is an in depth scholarly examination of the Hebraic foundations of the major tenets and practices of Christianity This volume confirms the truth that the inherent Jewishness of the Christian faith is simply an undeniable historical and theological fact By evaluating Christian doctrine and polity through the Jewish mindset of Jesus and the apostles this book uncovers a veritable treasure of Hebraic truth For every authentic Christian fruit there is a Jewish root This truth is demonstrated across a wide spectrum of theological truth including Scripture Messiah Salvation Faith Baptism Gospel Grace and Discipleship Christianity owes a profound debt of gratitude to the Jewish people and to biblical and Second Temple Judaism for the foundations of the truths and practices that it holds dear As you read this challenging informative and inspirational book you will be amazed at just how Jewish Christianity the other Jewish religion actually is **Nature and Command** J. Caleb Clanton,Kraig Martin,2023-08-18 Since at least the time of Plato religious explanations of the metaphysical foundations of morality have typically fallen into one of two camps natural law theory according to which morality is fundamentally explained by facts about human nature facts that God is responsible for and divine command theory which holds that moral obligations arise directly from God's commands or some other prescriptive act of the divine will J Caleb Clanton and Kraig Martin offer an accessible analysis of these traditional views reconstruct the various arguments for and against them and offer an extended consideration of the historical emergence of the divide between these positions within the Christian tradition Nature and Command goes on to develop and defend a theory that combines these two views a metaethical approach that has not yet received the scholarly attention it deserves Along the way the authors make use of underexplored theological resources drawn from the Stone Campbell movement a nineteenth century restoration movement that culminated in one of the largest Protestant groups in America by the dawn of the twentieth century Nature and Command summons the resources of this particular Christian heritage its first principles call for unity and ecumenism to solve one of the great dilemmas of moral philosophy and theology dating back to Plato's Euthyphro This historically aware argumentatively rigorous and highly readable volume will serve as a valuable resource for moral philosophy and ethics as well as for mining the Stone Campbell Restoration tradition for historical and theological insights **The doctrine of divine love; or, Outlines of the moral theology of the Evangelical Church. Tr. by S. Taylor** Ernst Wilhelm C. Sartorius,1884 **Hermann Cohen** Frederick C. Beiser,2018-10-04 This book is the first complete intellectual biography of Hermann Cohen 1842-1918 and the only work to cover all his major philosophical and Jewish writings Frederick C Beiser pays special attention to all phases of Cohen's intellectual development its breaks and its continuities throughout seven decades The guiding goal behind Cohen's intellectual career he argues was the development of a radical rationalism one

committed to defending the rights of unending enquiry and unlimited criticism Cohen s philosophy was therefore an attempt to defend and revive the Enlightenment belief in the authority of reason his critical idealism an attempt to justify this belief and to establish a purely rational worldview According to this interpretation Cohen s thought is resolutely opposed to any form of irrationalism or mysticism because these would impose arbitrary and artificial limits on criticism and enquiry It is therefore critical of those interpretations which see Cohen s philosophy as a species of proto existentialism Rosenzweig or Jewish mysticism Adelman and K hnke Hermann Cohen An Intellectual Biography attempts to unify the two sides of Cohen s thought his philosophy and his Judaism Maintaining that Cohen s Judaism was not a limit to his radical rationalism but a consistent development of it Beiser contends that his religion was one of reason He concludes that most critical interpretations have failed to appreciate the philosophical depth and sophistication of his Judaism a religion which committed the believer to the unending search for truth and the striving to achieve the cosmopolitan ideals of reason *Science, Truth, Religion and Ethics as Foundations of a Rational Philosophy of Life* Harry Mann Gordin,1924 *Ethics and Political Theory* Joseph Grčić,2000 In *Ethics and Political Theory* Joseph Grcic explores the ways in which the ideas of John Rawls can be implemented to realize the ideals of liberal democracy Many of the essays evaluate Rawls discussion of the relationship between liberal democratic equality and economic liberty Grcic argues that Rawls has not fully considered how differences in income and wealth restrict political equality in Western capitalist democracies However Grcic contends that a practical extension of Rawls theory does suggest ways to reform democratic societies These include the public financing of all election campaigns and free legal representation In an attempt to clarify the nature and foundations of political power Grcic also advocates a new approach to ethics which focuses on the social functions of moral values rather than individual agency This book is unique in its attempt to deal with both theoretical and applied questions making it an important resource for philosophers and those interested in actual political reform
