Cold Steel Alfred Hutton, 2012-08-08 DIV This 1889 classic by a pioneer of modern fencing offers both technical and historical views of the art of the sabre Topics include a variety of different strokes and parries and associated weapons 55 illustrations div **Wastelands** Corban Addison, 2023-09-19 Beautifully written impeccably researched and told with the air of suspense that few writers can handle Wastelands is a story I wish I had written From the Foreword by John Grisham The once idyllic coastal plain of North Carolina is home to a close knit rural community that for more than a generation has battled the polluting practices of large scale farming taking place in its own backyard After years of frustration and futility an impassioned cadre of local residents led by a team of intrepid and dedicated lawyers filed a lawsuit against one of the world's most powerful companies and miraculously they won As vivid and fast paced as a thriller Wastelands takes us into the heart of a legal battle over the future of America's farmland and into the lives of the people who found the courage to fight There is Elsie Herring the most outspoken of the neighbors who has endured racial slurs and the threat of a restraining order to tell the story of the waste raining down on her rooftop from the hog operation next door There is Don Webb a larger than life hog farmer turned grassroots crusader and Rick Dove a riverkeeper and erstwhile military judge who has pioneered the use of aerial photography to document the scale of the pollution There is Woodell McGowan a quiet man whose quest to redeem his family's ancestral land encourages him to become a better neighbor and Dr Steve Wing a groundbreaking epidemiologist whose work on the health effects of hog waste exposure translates the neighbors stories into the argot of science And there is Tom Butler an environmental savant and hog industry insider whose whistleblowing testimony electrifies the jury Fighting alongside them in the courtroom is Mona Lisa Wallace who broke the gender barrier in her small southern town and built a storied legal career out of vanquishing corporate giants and Mike Kaeske whose trial skills are second to none With journalistic rigor and a novelist's instinct for story Corban Addison's Wastelands captures the inspiring struggle to bring a modern day monopoly to its knees to force a once invincible corporation to change and to preserve the rights and restore the heritage of a long suffering community *Cost of living and retail prices of food* United States. Bureau of Labor, 1904

Lentz, 2015-09-15 Lee Marvin did not receive his first starring film role until he was 40 but in three short years following the successes of *Cat Ballou* for which he won the Academy Award as Best Actor *The Professionals* and especially *The Dirty Dozen* he was the most popular film actor in America Marvin was a fascinating man a loving husband and father and one of the most natural effective actors of his time This is a comprehensive reference of the Oscar winning actor's work It includes biographical information on Marvin an analysis of each of his 64 movies chapters on his two television shows *M Squad* and *Lawbreaker* a listing of his television appearances and a complete filmography which includes video availability The work is supplemented with dozens of photographs and film stills Animals as Food Amy J. The Parallel Lives of Women and Cows J. Halley, 2015-12-04 Weaving together a social history of the American beef industry with her own account of growing up in the shadow of her grandfather's cattle business Halley juxtaposes the two worlds and creates a link between the meat industry and her own experience of the formation of gender and sexuality through family violence

Tied to the Great Packing Machine Wilson J. Warren, 2009-11 Ambitious in its historical scope and its broad range of topics Tied to the Great Packing Machine tells the dramatic story of meatpacking's enormous effects on the economics culture and environment of the Midwest over the past century and a half Wilson Warren situates the history of the industry in both its urban and its rural settings moving from the huge stockyards of Chicago and Kansas City to today's smaller meatpacking communities and thus presents a complete portrayal of meatpacking's place within the larger agro-industrial landscape Writing from the vantage point of twenty-five years of extensive research Warren analyzes the evolution of the packing industry from its early period dominated by the big terminal markets through the development of new marketing and technical innovations that transformed the ways animals were gathered slaughtered and processed and the final products were distributed In addition he concentrates on such cultural impacts as ethnic and racial variations labor unions gender issues and changes in Americans' attitudes toward the ethics of animal slaughter and patterns of meat consumption and such environmental problems as site point pollution and microbe contamination ending with a stimulating discussion of the future of American meatpacking Providing an excellent and well-referenced analysis within a regional and temporal framework that ensures a fresh perspective Tied to the Great Packing Machine is a dynamic narrative that contributes to a fuller understanding of the historical context and contemporary concerns of an extremely important industry
