insider s look at desegregation in all regions of the country with a candid discussion of Black and Brown Power militancy and the reaction of white students Debates about the war in Vietnam also rattled the high schools as young men and women potential draftees and their colleagues clashed over their judgments of American policy In addition to these large social issues student activists had their own specific agendas relaxing dress codes taking part in school governance and initiating changes to the curriculum School authorities responded warily but often positively By the time activism waned in the mid 1970s students had succeeded in making their high schools more open more democratic and more in tune with the times Graham demonstrates that although teenagers were indisputably influenced by the events reshaping the wider world they were neither pawns nor mere mimics of their elders Rather they drew upon the rhetoric and strategies available to them in the 1960s to promote their own interests
