

# A Midsummer Night's Dream

by William Shakespeare

You will need to concentrate on the following:

1. The historical period and the theatrical conventions of the period.
2. The style of the play.
3. Characters – interpretation, motivation, vocal aspects, movement and interaction, their use of the acting space, their use of props and set, their costume, make-up and hair and the relationship between the actors and the audience.
4. Staging – the effect of the production on different stages e.g. Thrust, Proscenium, Theatre in the Round and Traverse.
5. Design – the set and props, costumes, make-up and hair, lighting and sound.

## CLASS DISCUSSION TASKS

Before you start to study the drama, you need to remember some things that will help you with each task.

1. Staging  
There are four main types of stage layouts: Proscenium, Thrust, Traverse and Theatre in the Round.
  - Make a sketch of each one.
  - Add where the audience will be placed.
  - Propose an idea of the kind of set that can be used on each stage.

- Remember that the floor, the stage and the roof are important.
  - The walls behind the audience can also be used.
2. Although it is usually the director who makes the decisions regarding staging, it is necessary to work with the designers.
    - Can you name each designer?
    - What is the role of each designer?
    - Remember that the designers add to the atmosphere of the performance and enrich the audience's experience.

(More information and terminology regarding designers can be found in the appendix.)

3. You must remember that vocal skills, movement and interaction have to be discussed when discussing a performance. Do you remember all the different elements which must be referred to when discussing each one?
4. You must understand the meaning of the term **style**. Can you explain what is the meaning of naturalistic style, symbolic style and minimalistic style?
