Thoughts on the Apocalypse Benjamin Willis Newton,1858 [A Brief Commentary on the Apocalypse](#) Sylvester Bliss,1853 **A Brief Commentary on the Apocalypse** Sylvester Bliss,2014-12-26 A Brief Commentary on the Apocalypse is a classic work of bible study that was originally written in 1853 and it provides fascinating insight to the Book of Revelation The author describes how historical events have occurred which fulfill the great bible prophecy The Book of Revelation often called the Revelation to John the Apocalypse of John The Revelation or simply Revelation or Apocalypse and often misquoted as Revelations is a book of the New Testament that occupies a central place in Christian eschatology Its title is derived from the first word of the text written in Koine Greek apokalypsis meaning unveiling or revelation before title pages and titles books were commonly known by their first words as is also the case of the Hebrew Five Books of Moses Torah The Book of Revelation is the only apocalyptic document in the New Testament canon although there are short apocalyptic passages in various places in the Gospels and the Epistles a The author names himself in the text as John but his precise identity remains a point of academic debate Second century Christian writers such as Justin Martyr Irenaeus Melito the bishop of Sardis and Clement of Alexandria and the author of the Muratorian fragment identify John the Apostle as the John of Revelation Modern scholarship generally takes a different view and many consider that nothing can be known about the author except that he was a Christian prophet Some modern scholars characterise Revelation s author as a putative figure whom they call John of Patmos The bulk of traditional sources date the book to the reign of the emperor Domitian AD 81 96 and the evidence tends to confirm this The book spans three

literary genres the epistolary the apocalyptic and the prophetic It begins with John on the island of Patmos in the Aegean addressing a letter to the Seven Churches of Asia He then describes a series of prophetic visions including figures such as the Whore of Babylon and the Beast culminating in the Second Coming of Jesus The obscure and extravagant imagery has led to a wide variety of Christian interpretations historicist interpretations see in Revelation a broad view of history preterist interpretations treat Revelation as mostly referring to the events of the apostolic era 1st century or at the latest the fall of the Roman Empire futurists believe that Revelation describes future events and idealist or symbolic interpretations consider that Revelation does not refer to actual people or events but is an allegory of the spiritual path and the ongoing struggle between good and evil

Commentary on the Apocalypse St. Victorinus, commentary on the Book of Revelation written by St Victorinus Bishop of Petau and Martyr It is from the Ante Nicene Fathers Vol 7 Originally written in the latter part of the 3rd century All his works have disappeared except the extracts from his commentaries on Genesis and the Apocalypse if indeed these texts are really a remnant of his works concerning which opinions differ Do you want to know what the early Church believed about the Revelation then this is a good example of their belief

After the Apocalypse Srećko Horvat, 2021-02-11 In this post apocalyptic rollercoaster ride philosopher Sre ko Horvat invites us to explore the Apocalypse in terms of revelation rather than as the end itself He argues that the only way to prevent the end i e extinction is to engage in a close reading of various interconnected threats such as climate crisis the nuclear age and the ongoing pandemic Drawing on the work of neglected philosopher G nther Anders this book outlines a philosophical approach to deal with what Horvat borrowing a term from climate science and giving it a theological twist calls eschatological tipping points These are no longer just the nuclear age or climate crisis but their collision conjoined with various other major threats not only pandemics but also the viruses of capitalism and fascism In his investigation of the future of places such as Chernobyl the Mediterranean and the Marshall Islands as well as many others affected by COVID 19 Horvat contends that the revelation appears simple and unprecedented the alternatives are no longer socialism or barbarism our only alternatives today are a radical reinvention of the world or mass extinction After the Apocalypse is an urgent call not only to mourn tomorrow s dead today but to struggle for our future while we can

Vision of the Ages Barton W. Johnson, 1881 THE APOCALYPSE OF ST. JOHN HENRY BARCLAY SWETE, D.D., 2023-12-01 H B Swete s Commentary on the Apocalypse of John receives the following comment from Don Carson in his New Testament Commentary Survey Swete is normally stodgy and often dull but although he never shakes of his pedestrianism in this commentary there is some really useful and thorough material that helps the reader to see the depth of the book page 162 No book of the New Testament has suffered so severely as regards general reading and homiletic use as the Apocalypse The reason is quickly found So long as the traditional views of inspiration and the canon stood intact the very strangeness of the book made it fascinating Taken not only as a divine philosophy of history but as a philosophy of history packed with exact prediction of the unfolding future it exercised an irresistible influence on the Christian consciousness But the doctrine of inspiration and the conception of the canon being in process of restatement the elements in the book which are foreign to our taste stand out in bold relief A part of its imagery belongs to a world social and political from which we are remote Its

continuous mystical use of numbers goes against our grain. The coloring is not always to our natural liking. And deeper than all the mighty grip of the conception of evolution on our minds and wills puts us out of instinctive sympathy with that highly visualized view of the kingdom of God which seems to bring it down into history with a plunge. So the Apocalypse has paid heavy taxes to criticism. But the times are ripe for a deeper appreciation. We possess a rapidly growing body of knowledge pertaining to the first century and to the life of the Christian church within that century. This enables us to place the Apocalypse in intimate and quickening relations with the Roman Empire on the one side and on the other with the inner mind with the interior labor of the church viewed as an aggressive and heroic community devoted to supreme moral and spiritual ends. We may therefore look for increasing study of the Apocalypse. Ramsay's *Letters to the Seven Churches* (1905) and the book before us are in evidence. Swete's *Commentary* has already gone into a second edition. For a commentary which is in the best sense scholarly in which the homiletical element while strong is controlled, this is a notable success. It is due in part to the fact that it is the first thoroughly critical commentary done in English. But in part it is due to the high merits of the book itself. The author takes a conservative position on the question of the unity of the Apocalypse. It is a natural and wholesome protest against the 73-74 *THE BIBLICAL WORLD* results of documentary analysis as practiced since the appearance of V61ter's book in 1885. These results, whether imaginary or real, are tainted by a preconception in favor of documentary analysis borrowed from the Old Testament critic. The New Testament critic, while assuming the possibility of documentary strata, should hold his judgment in suspense until a long and patient study has brought all the qualities and idioms of the book to light. And beyond question, in some modern instances, the brilliancy of documentary analysis has been disproportional to the depth and thoroughness of exegetical knowledge. Swete emphasizes the literary unity of the Apocalypse and the operation clear through it of a creative imagination of the highest order. He recognizes the possibility of fragments of an older book (e.g. ii i and i7 io). But regarding the Apocalypse as it lies before us, he is a thoroughgoing believer in its unity. One cannot but feel that he does not do full justice to the fact of corporate authorship in the first century. The heroic age of Christianity was brief. The creative imagination of the new prophetism soon lost its vigor. But during its prime, it may well have had power to stamp upon the members of an apocalyptic brotherhood or school a degree of unity in conception and literary workmanship to which modern standards present a very poor parallel. Swete also holds firmly to the traditional view that the Apostle John is the author of the Apocalypse, while regarding the Fourth Gospel, he admits plainly that the Johannine authorship is open and perhaps will always be open to doubt. His position marks an interesting milestone in the progress of conservative English opinion. At this important point, it adopts in large degree the opinion of Baur, against which for a long time it strongly and almost fiercely protested. He does not face or handle the Johannine problem in its entirety. In the present state of knowledge and opinion, that may not be possible. Perhaps it is not even desirable. Our greatest need in the New Testament field is the thorough monographing of individual books. We have had enough and more than enough of constructive generalization. Yet

the argument for the Johannine authorship of the Apocalypse would have stood on solid ground if he had given more space to the Johannine question as a whole. Regarding the date he is very positive in favor of the reign of Domitian. As far as the choice between the Neronian date and the Domitian date is concerned his certainty is within bounds. Our growing knowledge of the first century goes to the support of the early tradition which dated the book from Domitian's reign. But here again Swete pays too little attention to the possible results of corporate authorship. The Apocalypse may have undergone a second edition in the reign of Trajan. The principle of interpretation adopted is an attempt at a compromise between the futurists or those who find a body of prediction in the book and the preterists or those who take the book to be a religious philosophy of accomplished events pp. ccxvi-ccxviii. But when we come to the application of the principle to specific exegesis it may be doubted whether we find enough futurism to make the term worth while. If for example the comment on 6:15 "Not only officials will be terror-struck by the signs of an approaching end but all classes of society wealth and physical strength will afford no security" be futurism then the strictest preterist of an earlier day was also a futurist. The futurism of Swete's interpretation comes close to being a negligible quantity. The question at stake between the two schools had its whole point here: Does the Apocalypse contain a body of specific tradition? Put the question in this way and Swete answers no p. ccxvi. To call what is left preterism and to put the result forward as a comprehensive principle doing justice to both of the schools is a procedure that is not likely to contribute to clearness of thought or exactness in terminology. Swete does ample justice to the Caesar cult both as an occasioning cause in the publication of the Apocalypse and as a continuous element in its thinking. He does not however do full justice to the heathen side of the great debate. He speaks p. xc of the refusal on the part of Christians to offer incense to the emperor's image as exposing them to the charge of disloyalty both to the provincial authority and to the emperor. As a matter of fact the heathen were right in their charge. No matter how high the motive of the Christian was it was an action that every level-headed and deep-minded heathen must perforce regard as disloyalty. The worship of the emperor was an inevitable and instinctive action on the part of the empire. State and church being one and religion being what it was this was the only way in which the state could insure in terms of religion the public peace and common welfare. Although the movement began in Asia Minor in the first century Italy was as far on as the provinces. Mau's fine book on Pompeii shows how large a part the worship of the Caesars played in an Italian town of possibly 20,000 people. It was the inevitable action of the whole empire. Christians in refusing to share it were actually guilty of high treason. The commentary abounds in happy and pregnant interpretations. Combining the standards of the general reader and the New Testament critic it may be safely said to be the best commentary of our time upon 76 THE BIBLICAL WORLD the Apocalypse. But it has one serious defect. It does not by its distribution of emphasis and book space bring out fully the genius of the book. The books of Scripture should be treated according to their kind. The Johannine Apocalypse belongs to the class of great poems. Under qualifications it should be studied as the Prometheus of Aeschylus is studied. Swete says with truth Preface p. ix.

that the Apocalypse offers to the pastors of the Christian church an unrivaled store of materials for Christian teaching But the true way to bring the Apocalypse once more close to the heart of Christians is to study it as the expression of the creative imagination serving the creative moralizing will The will and the imagination are inseparable It is through the imagination that the will asserts its right of way through history The emphasis should therefore fall upon the imagination But Swete in the distribution and economy of his space keeps within the conventional lines and bounds of exegesis For example more space is given to the question of the Nicolaitans than to the incomparable imagery of 12 I ff In more than one place we look for an imaginative interpretation of a supreme imagination and find in its stead accurate archaeology But no amount of archaeology will render the Apocalypse what it must become in order to be appreciated inevitable as all great poetry is inevitable HENRY S NASH CAMBRIDGE MASS **Lectures on the Apocalypse; critical, expository, and practical Hulsean lects., 1848** Christopher Wordsworth (bp. of Lincoln.),1852 End of Days Karolyn Kinane,Michael A.
