Pursuit of Continuous Improvement in Educational Organizations Michael D. Richardson, 1997-12-04 Wave after wave
of educational reform has flooded the educational landscape with pronouncements for change in education however none
with the impact of Total Quality Management Today Total Quality Management is a conceptual and practical reality for many
educational administrators who are caught on the horns of a dilemma balancing the demands for increased accountability
within the context of calls for participatory decision making Few alternatives have been identified from either the research
knowledge base or the practitioner base which will assist the practicing administrator deal with this dilemma One such
alternative is Total Quality Management TQM the most critical component of which is continuous improvement This book
argues that TQM and particularly continuous improvement should be a tool for the improvement of educational leadership

to shed new light on our current educational system and suggest effective ways to improve and restructure our schools and
school districts This is an important book for all educational professionals *Structuring Schools for Success* Mary
Scheetz, Tracy Benson, 1994-04-08 This book provides the steps methods and strategies that a team of professional educators
successfully used in one school to develop Total Quality Education TQE As the final volume in the TQE series the book is a
useful guide for teachers administrators and parents in creating the self renewing school Seven chapters are based on the
experiences of the staff at Orange Grove Middle School located in the Catalina Foothills School District in Tuscon Arizona
The concept of mapping improvement in schools is introduced in the first chapter with a focus on addressing paradigms held
by participants and the complexity of the school culture Chapter 2 considers how the introduction of dynamic complexity can
result in a sense of fear on the part of staff members It is argued that each individual's purpose in the organization must be
understood in order to develop communication and collaboration The third chapter describes how to determine the beliefs
and assumptions that already exist in relationship to organizational values Ways in which a vision can be developed as a
result of exposing prior values are described in the fourth chapter Chapter 5 maintains that if the vision is to be realized the
organizational structures must be consistent with that vision It explains how to assess and adjust existing structures
implement feedback mechanisms and utilize system dynamics strategies The sixth chapter describes how to utilize external

support structures for achieving school goals Chapter 7 offers essential questions to ask before beginning the TQE process
Key terms and concepts are defined at each chapter s end LMI
