resources and prompts they will address these types of questions How can I look past the first solution to find the right solution How can I train myself to be creative How can I better articulate how my study of the arts informs my decision making in other fields How can the arts help me get a job in my chosen field Interdisciplinary Arts helps students discover their expressive capabilities and integrate them fully into their lives They will learn to break through barriers by looking at things in new ways and by allowing their experiences in each discipline to inform their work in others Their creative journey will take them through a four step creative process A thumbnail sketch that acts as a rough draft or outline for their project A feedback phase where they learn to assimilate their ideas and others ideas about their project A presentation phase where they showcase their work A reflection phase where they consider why they made the work what it means to them and what they learned from it The book also comes with an instructor guide that offers chapter overviews teaching tips additional exercises a sample syllabus and more A student web resource includes all the activities and journal prompts as well as editable worksheets and additional resources Students engaging with Interdisciplinary Arts will come away with a better sense of cross disciplinary thinking their own capacity for creativity and the connections between their body mind and spirit They will find that their creative energies flow more freely and they will be able to see how to transfer the skills they learned through this text to a host of endeavors throughout their lives Note A code for accessing HKPropel is not included with this ebook but may be purchased separately
