Reframing America:

An End to al-Qaeda Malcolm Nance, 2010-02-16 Osama Bin Laden is unquestionably the leader of the world's most deadly terrorist cult. He has perverted the teachings of Islam to create a fringe religious ideology, Bin Ladenism, where only al-Qaeda speaks for God. In his cult, suicide bombing is the highest form of worship, and the mass murder of Muslims proves one's devotion. Al-Qaeda's 9/11 attack on the United States was just a small part of Bin Laden's long-term strategy to win a civil war for control of Islam. By fighting his terrorists solely with bullets and bombs and ignoring his war on Islam, we have bolstered Bin Laden's recruiting efforts abroad, undermined civil liberties and economic security at home, and tarnished America's reputation internationally. Career intelligence officer Malcolm Nance proposes a quantum shift in how to eliminate al-Qaeda in less than twenty-four months while recreating America's reputation as a force for good around the world. His plan includes exposing al-Qaeda's mission to create a nuclear-armed terror emirate, incite a Muslim civil war, and eventually seize control of Islam. Challenging and breaking the perceived spiritual link between mainstream Islam and al-Qaeda's cultist ideology. Attacking al-Qaeda fighters through precision intelligence and special operations missions, thereby reducing the deaths of innocent civilians. Reframing and restoring America's shattered image in the developing world in order to support the global counterterrorism and counterinsurgency campaign. An End to al-Qaeda is both a revolutionary blueprint for destroying al-Qaeda and a fierce critique of America's poorly executed war on Bin Laden's terrorists. The End of Engagement David M. McCourt, Associate Professor of Sociology David M. McCourt, 2024 In The End of Engagement David M. McCourt traces the intense personal, professional, and policy struggles over China and Russia in U.S. foreign policy since the end of the Cold War. Drawing on 200 original interviews with America's China and Russia experts from former policymakers and diplomats to prominent think tankers and academics, McCourt chronicles the rise and recent fall of engagement with Beijing and Moscow. Adopting a unique sociological perspective, this book offers an intimate look into the world of America's national security experts as they have struggled to make sense of changes in China and Russia and the remaining question of what comes next. On Paper, 1997 See, 1996 **Abortion Wars** Rickie Solinger, 1998-01-16 Contains eighteen essays that offer a pro-rights perspective on the issue of abortion, examining the topic within the historical framework of the second half of the twentieth century and discussing the reasons why abortion continues to be one of the most violently contested issues in the United States. **The Photographic Journal of America**, 1918 **In Sight of America** Anna Pegler Gordon, 2002 Positioned at the intersection of immigration history and visual culture, this dissertation links original archival research on federal immigration policy with detailed readings of photographic collections, photographers, and individual images. Drawing on numerous immigrant case files, this study presents a new perspective on U.S. immigration policy that recognizes the central role of visuality within history.
