Metalinguistic Activity In Learning To Write:

Metalinguistic Activity in Learning to Write Anna Camps Mundó, Marta Milian, 2000 The volume presents empirical research on metalinguistic activity in the process of learning and teaching of writing Contributions from educational psychologists researchers in language education and cognitive psychologists from different countries will address the incidence of metalinguistic activity during the composition process in different settings from primary to university levels and offer methodological issues concerning research on this specific topic This book is recommended to developmental researchers in the area of writing competence acquisition to language teachers and trainers and to writing researchers interested in the complex sociocognitive processes of writing and learning to write **Grammar at School** Dan Van Raemdonck, Teresa Ribas, Xavier Fontich, Oriol Guash-Boyé, 2015-01-16 The studies presented in this book argue that exploring the grammatical system outside the communicative flow enables students to develop clearer knowledge of this system and to become more effective in their language use This approach is the outcome of research revolving around the role of metalinguistic knowledge in learning how to write According to this research language use and metalinguistic activity are interdependent The international debate on the effect of grammar instruction on writing skills has been dominated by an overly causal approach which ignores core considerations such as the teaching procedures that we use to reflect upon the grammar system in the classroom and the way we conceptualise this system This book highlights the need to encourage students to engage in metalinguistic activity in which verbalisation and data manipulation should play a key role It also emphasises the importance of conceptualising the grammar system as an organic entity resulting from the integration of form meaning and the intention of the speaker *Development of Writing Skills in Children in Diverse Cultural Contexts* Alina Galvão Spinillo, Carmen Sotomayor, 2023-06-16 This book brings together multiple theoretical perspectives and disciplinary approaches to study the acquisition and development of written language by children as well as the implications for teaching and learning of writing practices in a variety of languages and cultural contexts Chapters in this contributed volume present both theoretical contributions and results of research carried out with students and teachers from 11 countries Belgium Brazil Chile Israel Italy Mexico the Netherlands Portugal Spain UK and USA who speak seven different languages Portuguese Spanish English Italian French Dutch and Hebrew By bringing together research developed in diverse cultural contexts it enriches the debates in the interdisciplinary field of writing studies by analyzing a wide range of topics at the interface between research and educational implications for the teaching and learning of writing by children The book consists of five parts each one addressing a specific set of topics Part I presents studies on topics related to written language representation systems phonological and morphological awareness and on the relationship between grammar and the quality of texts of different genres Part II includes studies related to compositional processes of writing texts and the factors involved in these processes Part III focuses on the difficulties faced by students during the acquisition and development of

writing Part IV is dedicated to chapters that discuss and compare writing practices in different social environments Finally chapters in part V deal with teaching and learning of writing in the school setting Development of Writing Skills in Children in Diverse Cultural Contexts Contributions to Teaching and Learning will be of interest to researchers and students in the fields of psychology education and linguistics as well as to other social scientists in the broader interdisciplinary field of writing studies Handbook of Writing Research , **Language Intervention for School-Age Students** Geraldine P. Wallach,2007-09-25 Language Intervention for School Age Students is your working manual for helping children with language learning disabilities LLD gain the tools they need to succeed in school Going beyond the common approach to language disorders in school age populations this innovative resource supplements a theoretical understanding of language intervention with a wealth of practical application strategies you can use to improve learning outcomes for children and adolescents with LLD Well referenced discussions with real life examples promote evidence based practice Case histories and treatment strategies help you better understand student challenges and develop reliable methods to help them achieve their learning goals Unique application based focus combines the conceptual and practical frameworks to better help students achieve academic success Questions in each chapter encourage critical analysis of intervention methods for a deeper understanding of the beliefs behind them In depth coverage of controversial topics challenges your understanding and debunks common myths Realistic examples and case studies help you bridge theory to practice and apply intervention principles Margin notes highlight important facts questions and vocabulary for quick reference Key Questions in each chapter put concepts into an appropriate context and help you focus on essential content Summary Statement and Introductory Thoughts sections provide succinct overviews of chapter content for quick familiarization with complex topics

Past, Present, and Future Contributions of Cognitive Writing Research to Cognitive Psychology Virginia Wise Berninger,2012 This volume tells the story of research on the cognitive processes of writing from the perspectives of the early pioneers the contemporary contributors and visions of the future for the field It includes the very latest in findings from neuroscience and experimental cognitive psychology and provides the most comprehensive current overview on this topic

Grammar at School Teresa Ribas i Seix,2014 The studies presented in this book argue that exploring the grammatical system outside the communicative flow enables students to develop clearer knowledge of this system and to become more effective in their language use This approach is the outcome of research revolving around the role of metalinguistic knowledge in learning how to write According to this research language use and metalinguistic activity are interdependent The international debate on the effect of grammar instruction on writing skills has been dominated by an overly causal approach which ignores core considerations such as the teaching procedures that we use to reflect upon the grammar system in the classroom and the way we conceptualise this system This book highlights the need to encourage students to engage in metalinguistic activity in which verbalisation and data manipulation should play a key role It also emphasises the importance

of conceptualising the grammar system as an organic entity resulting from the integration of form meaning and the intention of the speaker

Talking to Learn Pauline Jones, Jennifer Hammond, 2018-10-09 This book examines the place of talk in learning and the role of such talk in literacy education It builds on a strong tradition of research into the role of talk in constructing curriculum knowledge the relationship between talking and thinking and the significance of extended in depth dialogic interaction in classroom talk However it differs from tradition with its emphasis on the need to make the role of language in learning more visible and more explicit This book places particular emphasis on the relationship between dialogic pedagogy and language based approaches to learning Contributions range from discussions on educational linguistics and dialogic pedagogy as complementary perspectives to needs of students for whom English is an additional language or dialect This volume was originally published as a special issue of Research Papers in Education

Sound It Out! Phonics in a Comprehensive Reading System John F. Savage, 2006-07-10 Are you interested in phonics coverage as part of a comprehensive reading program Rather than treating phonics as an end in itself this brief text shows how phonics fits into the overall process of a child s learning to read It helps students understand how phonics can be integrated successfully into an effective classroom reading program While it includes a wealth of suggestions for practical classroom applications the book has a solid research base so that students will understand what they are doing and why they are doing it in the

classroom The text includes information about all types of phonics programs and the different approaches to teaching phonics for reading and spelling *Australian Journal of Reading* ,1991 Reflection and Strategies in Foreign Language Learning Jennifer Ridley,1997
