British Masculinity in Transatlantic Cinema Carolyn Owen-King, 2024-12-12 British Masculinity in Transatlantic Cinema explores the Hollywood careers and stardom of British male actors who had fought in the first World War. In an apparently incongruous development in the years after the armistice, some of the men who fought in Scottish regiments during World War I found some degree of career success in Hollywood's film industry, two of which included Ronald Colman and Basil Rathbone. Through exploring transatlantic film history, this book uncovers the ways in which these men were presented in media and on screen, arguing that they carry with them even in films made at the height of censorship an appealing and attractive queerness. Owen King expands on Eve Kosofsky Sedgwick's theory of homosocial homosexual continuum and offers readings of film texts that use her theories to survey gender and sexual identities within Hollywood's Golden Era.

The Pocket Book of Father Brown Gilbert Keith Chesterton, 1927 The father of paradox. The outstanding characteristics of Father Brown are his remarkable abilities: first to imagine himself in the place of the criminal and secondly his insight into the human heart gained over a long period of time in the course of his parish work. These two qualities make him the most human, most lovable, and the wisest of all fictional detectives. Physically he is small and insignificant man except for a rather large round stomach and small round hat. At first people are inclined to overlook him, but after five minutes of conversation people recognize that he talks truth.
