## Sentences In Dialog:

Ontology-Based Answer Selection in Dialog Systems Christian Pretzsch, 2006-11-13 Thesis M A from the year 2006 in the subject Computer Science Miscellaneous grade 1 1 University of Heidelberg Seminar f r Computerlinguistik Institut f r allgemeine und angewandte Sprachwissenschaft language English abstract In these days our daily life is more and more affected by computers chips electronic equipment et cetera Owing to this increase of technology even in common everyday objects like for example a fridge it is necessary to find a simple and intuitive way to interact with complex technology Natural language dialog systems could be the solution or at least a part of it how humans and machines could communicate or interact with each other With the help of dialog systems people could access information and technical functionality of computers in a natural way using linguistic in and output One of the main tasks of such dialog systems is to provide fast and appropriate answers to user s questions or requests The challenge therein is how do we find these answers out of the flood of information

**Basic Course in Finnish** Meri Lehtinen, 2017-07-28 First published in 1997 Routledge is an imprint of Taylor Francis an informa company

**Commitment in Dialogue** Douglas N. Walton, Erik C. W. Krabbe, 1995-01-01 This book develops a logical analysis of dialogue in which two or more parties attempt to advance their own interests It includes a classification of the major types of dialogues and a discussion of several important informal fallacies The authors define the concept of commitment in a way that makes it useful in evaluating arguments In traditional logic a proposition is either true or false and that is the end of it In this new framework an arguer can be held to his or her commitments in some cases but in other cases he or she can retract them without violating any rule of the dialogue Commitment in Dialogue studies the conditions under which commitments should be held or may be retracted within an argument An extensive case study of a discussion in medical ethics is used to bring together two traditions or schools of thought that had not been integrated previously the rigorous Lorenzen school of formal logic and the more permissive Hamblin style dialogue It introduces these methods of evaluation and offers guidelines for analyzing the text of discourse The book could be used in both intermediate and advanced courses in informal logic argumentation and critical thinking but it is accessible to the reader with no background in these fields as well Each chapter is summarized and additional problems to be solved are presented
