M. Evans, 2004 For much of its 130 year history the Bar U Ranch can claim to have been one of the most famous ranches in Canada Its reputation is firmly based on the historical role that the ranch has played its size and longevity and its association with some of the remarkable people who have helped develop the cattle business and build the Canadian West The long history of the ranch allows the evolution of the cattle business to be traced and can be seen in three distinct historical periods based on the eras of the individuals who owned and managed the ranch These colourful figures beginning with Fred Stimson then George Lane and finally Pat Burns have left an indelible mark on the Bar U as well as Canadian ranching history The Bar U and Canadian Ranching History is a fascinating story that integrates the history of ranching in Alberta with larger issues of ranch historiography in the American and Canadian West and contributes greatly to the overall understanding of ranching history

subsidized agribusiness corporations to tax laws that encourage development over agriculture and prevent the smooth transfer of land from one generation to the next As a stabilizing force in the American West ranch families play a critical role in our country perhaps more so today than ever before yet their stories have rarely been told They contribute to our nation with the food they raise the environments they protect and the resources they manage and they preserve our western heritage while holding the West open for the rest of us In *The Family Ranch* award winning author Linda Hussa offers readers a personal inside view into the lives of six diverse ranching families and the land that shapes their days and nights Photographer Madeleine Graham Blake provides engaging and often moving images that portray each family at work and at play With chapters on the critical issues that face each of them from grazing rights and water use to children s education and the emerging rural marketplace these family profiles are set in a larger context This is family ranching as it is now a tracing of how it always was but made far more complex in modern times By combining their traditions with the tools of modern technology these people strengthen the ideal of family and give the business of ranching a vibrant and viable future *The Family Ranch* is rich in remarkable stories of what happens when parents children work and nature come together for a lifetime of commitment It speaks to urban and rural people in important ways illuminating the realities of the western ranch and the people who make their living and their lives on it Essential reading for people who love the West and care about its future *The Family Ranch* inspires thoughts about tradition values and responsibility that are applicable to all communities
