Pure Justice:

Global Crime and Justice David Jenks, John Randolph Fuller, 2016-12-08 Global Crime and Justice offers a truly transnational examination of both deviance and social controls around the world Unlike comparative textbooks detailing the criminal justice systems of a few select nations or cataloging types of international crimes that span multiple legal jurisdictions Global Crime and Justice provides a critical and integrated investigation into the nature of crime and how different societies react to it The book first details various types of international crime including genocide war crimes international drug and weapons smuggling terrorism slavery and human trafficking The second half covers international law international crime control the use of martial law and the challenges of balancing public order with human and civil rights Global Crime and Justice is suitable for use in criminology and criminal justice departments as well as in political science international relations and global studies programs It will appeal to all who seek an academically rigorous and comprehensive treatment of the international and transnational issues of crime and social order

Islamic Public Law - Islamic Law in Theory and Practice Ahmed Akgunduz, 2011-11-01 Islamic law contains explications and divisions that imply a classification in terms of public and private law In this book we will explain the outlines of Islamic public law e g First Chapter Islamic constitutional law al siy saḥ al shar iyyah and administrative law al siy saḥ al shar iyyah Second Chapter penal law al uq b t Third Chapter financial law zak t ushr ar j and other taxes Fourth Chapter trial law qa and Fifth Chapter international public law al siyar The fields of especially Islamic constitutional law administrative law financial law ta z r penalties and arrangements concerning military law based on the restricted legislative authority vested by Shar ah rules and those jurisprudential decrees based on secondary sources like customs and traditions and the public good maslahah all fell under what was variously called public law al siy saḥ al shar iyyah Shar ah policy q n n legal code q n nn mah orf uq q etc Since these laws could not go beyond Shar ah principles either at least in theory they should not be regarded as a legal system outside of Islamic law But Islamic penal law financial law trial law and international law depend mostly on rules that are based directly on the Qur an and the Sunnah and codified in books of fiqh Islamic law called Shar ah rules Shar i shar f or Shar ah law Such rules formed 85% of the legal system In this book we will focus on some controversial problems in the Muslim world today such as the form of government in Islamic law and the relation between Islam and democracy Islamic law does not stipulate a certain method of state government nonetheless we may say that the principles it decrees and its concept of sovereignty suggest a religious republic As a matter of fact ulaf al R shid n the Rightly Guided Caliphs were both caliphs and religious republican presidents We could say that this book has three main characteristics i We have tried to base our explanations directly on the primary Islamic law sources For example after reading some articles on the caliphate or t m r system in articles or books by some Western scholars and even by some

Muslim scholars one might conclude that there are different views on these subjects among Muslim scholars This is not true Muslims have agreed on the basic rules on legal subjects but there are some conflicts regarding nuances and interpretations If one reads works by Imam Gazzali Ibn Taymiyyah al M wardi and al Farr one will not find any disagreement on the main rules but there are some different interpretations of some concepts We have tried to discover where they agreed and we have sometimes pointed to where they differed ii We have researched practices of Islamic law especially legal documents in the Ottoman archives For example we explain add i sariqa but also mention some legal articles from the Ottoman legal codes q nunn mes and some Shar ah court decisions like legal decrees i l m t i shar iyyah It is well known that nobody can understand any legal system without implementing and practicing it That also holds for Islamic law because theory alone does not yield a complete understanding of Shar ah rules iii We have worked hard to correct some misconceptions and misunderstandings about Islamic law That is why we appeal to the primary sources For example some scholars claim that the anaf jurist Imam Sara s did not accept the idea of punishment for apostasy We have studied his work al Mabs t and found this claim to be unfounded The comparison between t m r and fief is another example because the t m r system is different from the fief system Some scholars confuse the concept of sovereignty and governance The Islamic state is not a theocratic state in the sense in which Europeans understand the term
