[Marijuana](#) Mark Kleiman,1989-06-26 A timely tightly reasoned thought provoking examination of ways to select policies

for the enforcement of federal marijuana drug laws Choice Mark Kleiman has written a thorough analysis of federal law enforcement policy options regarding marijuana The genesis of this work began when he worked as a policy analyst with the U S Department of Justice Kleiman presents a number of major arguments against increased federal enforcement of laws prohibiting marijuana including that it would 1 increase the use of other drugs such as PCP and alcohol 2 increase drug dealing and theft among adolescent users and 3 increase the involvement of organized crime in the illicit distribution and sale of marijuana due to the attraction of greater profits Regarding this last item he argues that as enforcement efforts increase it gives people with a propensity for using violence and corruption a competitive advantage in the marijuana trade Because Kleiman argues for a severe curtailment of federal law enforcement efforts against marijuana it will stimulate the debate about the role of federal law with regard to marijuana Journal of Contemporary Criminal Justice How and how vigorously should U S federal law enforcement agencies enforce the laws against dealing in marijuana This book assesses alternative ways of enforcing marijuana laws at the federal level Marijuana grew out of work begun by Kleiman in 1981 1982 when as a drug policy analyst for the Department of Justice he was trying to calculate how an increase in enforcement resources would serve the twin goals of reducing drug abuse and limiting the power and wealth of large criminal organizations This volume reproduces that analysis using newer data and compares results up to 1985 1986 with expectations It is intended not to second guess what was done but to suggest how such choices ought to be made in the future Kleiman divides his analysis into three parts First he identifies what is at stake in marijuana consumption and dealing estimates the size of the problem and discusses the criteria to be used in judging a policy recommendation The second part is devoted to developing a theory of drug dealing and its response to varying levels of enforcement pressure The remainder of the book applies that theory to the real world and discusses the policy options available now Kleiman s conclusions are pessimistic about the ability of federal enforcement to influence marijuana consumption His analysis supports both a reduction in federal marijuana enforcement efforts and a redirection towards the most violent dealing groups As a study of a critical problem in contemporary American society and as a work of policy analysis Marijuana will be challenging reading for political scientists economists policy analysts and members of those agencies dealing with drug law enforcement The serious general reader also will find it thought provoking

Medical Marijuana and Marijuana Use Albert T. Johnson,2009 Twelve states mostly in the West have enacted laws allowing the use of marijuana for medical purposes and many thousands of patients are seeking relief from a variety of serious illnesses by smoking marijuana or using other herbal cannabis preparations Meanwhile the federal Drug Enforcement Administration refuses to recognise these state laws and continues to investigate and arrest under federal statute medical marijuana providers and users in those states and elsewhere Claims and counterclaims about medical marijuana much debated by journalists and academics policymakers at all

levels of government and interested citizens include the following Marijuana is harmful and has no medical value marijuana effectively treats the symptoms of certain diseases smoking is an improper route of drug administration marijuana should be rescheduled to permit medical use state medical marijuana laws send the wrong message and lead to increased illicit drug use the medical marijuana movement undermines the war on drugs patients should not be arrested for using medical marijuana the federal government should allow the states to experiment and should not interfere with state medical marijuana programs medical marijuana laws harm the federal drug approval process the medical cannabis movement is a cynical ploy to legalise marijuana and other drugs With strong opinions being expressed on all sides of this complex issue the debate over medical marijuana does not appear to be approaching resolution
