This Teacher's Resource Book includes general information and hints on teaching mathematics, mathematical objectives of pupils, activities, suggestions for teaching approaches and introductory activities, ideas for developing the mathematical themes, notes on approaches to investigations, games and activities for calculator work, links with the environment and other curriculum areas, and back up for teachers such as pupil record sheet and glossary of mathematical terms. Each of the modules provides step-by-step instructions on how to investigate real-world environmental issues and presents opportunities to learn and practice action skills in the context of these issues. The program challenges students to actively contribute their ideas, time, and energy toward creating solutions at the local level in their schools, homes, and communities. The program encourages cooperative learning and encourages students to learn and develop personal responsibility for environmental action. The Teacher Resource Guide duplicates key material in the Student Edition with additional information and resources and blackline masters for all activity sheets. *Chemicals* Cathy Anderson, Stine, PH.D., Jeri Hayes, Catherine Anderson, 1997-05. **Instructor's Resource Manual and Test Bank** James Kauffman, Melody Tankersley, Daniel Hallahan, 2003-10. *Resource Directory for Teacher Education in Vocational Special Needs*, 1978. *Training Resources* Pennsylvania.
