

Tips for Encouraging Speech and Language Development

Use a high-pitched, sing-song voice. This helps to get & keep your baby's attention while you talk.

Play with sounds. Get silly while playing & make sounds that connect with what your child is doing.

Use facial expressions and gestures to communicate the meaning of words.

Describe your actions as you dress, feed, and bathe your child. Pairing the same words with routine activities is a great way to develop language.

Encourage two-way communication. When your child communicates with you using sounds, words, or gestures, be sure to respond & take turns in "conversation."

Read with your child. "Reading" can simply mean describing pictures without following the written words. Choose books with large, colorful pictures, and encourage your child to point to and name familiar objects.

Build on the words your child already knows to help expand their vocabulary. For example, if your child says "dog", you could say "Yes, that's a big dog."

Reward your child's phrases. If your child makes a speech or language error, respond with their phrase in the correct form. This helps them learn proper pronunciation and grammar. For example, if your child says "Doggy big", you can respond with "Yes the dog is big."

Pathways Of Language Development:

Pathways to Language Kyra Karmiloff,Annette Karmiloff-Smith,2002-04-30 A remarkable mother daughter collaboration balances the respected views of a well known scholar with the fresh perspective of a younger colleague in a comprehensive overview of the theory and practice of language acquisition [Pathways of Language Development](#) ,1989 [The Science of Learning and Development in Education](#) Minkang Kim,Derek Sankey,2022-05-26 This innovative text introduces readers to brain science and the science of complex systems as it applies to human development **Infant Pathways to Language** John Colombo,Peggy McCardle,Lisa Freund,2008-10-15 The recent progress in cognitive neuroscience and the importance of genetic factors and gene environment interactions in shaping behavioral functions in early childhood have both underscored the primacy of early experience and development on brain development and function The contributors to this volume discuss different paradigms and approaches [Pathways to the Seal of Biliteracy](#) Amy J. Heineke,Kristin J. Davin,Kristin Davin,2026 A growing movement of educators and the US public supports biliteracy in US education as a means to develop multilingual citizens and grow the US s multilingual capacity In 49 states and the District of Columbia educators can add a Seal of Biliteracy to high school diplomas to signify a student s ability to read write speak and understand English and one additional language Beginning in California high schools the Seal of Biliteracy has developed into a national program and is now extending into elementary and middle schools as pathways awards signaling they are on the pathway to proficiency in a language other than English In this book well known experts Kristin Davin and Amy Heineke explain how to create these pathways to enable younger students reach targeted proficiency levels by the end of high school Situating the program within a broader world languages education system the book covers the history of bilingualism language policy and ideology in US education and lays out a practical approach to developing successful pathways programs in an accessible style While there have been many articles about this topic there are few books that are as comprehensive and practical making *Pathways to the Seal of Biliteracy* a book that teachers principals administrators and parent advocates would all find useful as a way to encourage students toward multilingualism *Pathway of care and gaps in services for children and adults with autism spectrum disorder* Maria Luisa Scattoni,Andy Shih,Diana Schendel,2023-05-04 **The Pathways of Language Development** ,1987 [Literacy Evaluation](#) Chrystine Bouffler,1993 **ESL Readers and Writers in Higher Education** Norman W. Evans,Neil J Anderson,William G. Eggington,2015-06-12 *ESL Readers and Writers in Higher Education* describes the challenges ESL students in U S postsecondary institutions face when studying in a second language and offers suggestions for how teachers advisors tutors and institutions might provide support that meets the reading and writing needs of this very important student population Because the ESL profession as a whole including what professionals are doing in the classroom sits under the umbrella of an institutional response to a language related challenge some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom As such this book is based on the assertion that

language development support is not the sole responsibility of language teachers Everyone on campuses that hosts ESL students bears some responsibility for these students language development Chapters are therefore intentionally adapted to appeal to a wide variety of readers from classroom teachers and teachers in training to admissions officers academic advisors and international student advisors
