**Aanwinsten van de Centrale Bibliotheek (Queteletfonds)** Bibliothèque centrale (Fonds Quetelet),2004 *Early Adolescent Experiences of Friendships, Peer Relations, and Stress* Sylvie Graziani,2008 The purpose of this study was to examine the perceptions of early adolescent girls regarding friendships peer relations and stress

Ten early adolescent girls aged 12-13 years were interviewed using a semi-structured qualitative format. A grounded theory process was utilized. The research results identified that the participants experienced both a sense of belonging as well as acts of exclusion from friends. The participants reported that they do experience stress and it is mainly regarding friends, boys and parents. A number of character strengths were identified including friendship as a protective factor, empathy and optimism. This study is grounded in a Positive Youth Development Framework. This strength-based framework is identified and implications for future research and social work practice are discussed.

*Community Schools: A Strategy for Integrating Youth Development and School Reform* Jane Quinn, 2005-12-02. This volume summarizes the community school experiences of the Children's Aid Society and Beacons in New York City and other places; university-assisted models in Philadelphia; school system-generated community schools in Chicago; communitywide councils in Evansville, Indiana; and Portland, Oregon; and Boston's Full Service Schools Roundtable. The efforts of the Public Education Network to build public will for collaboration and California's statewide Healthy Start Initiative show how it is possible to expand the concepts over larger areas, and the Coalition for Community Schools provides the rationale for national community school legislation.
