Genre Theory and Historical Change Ralph Cohen,2017-11-10 Ralph Cohen was highly regarded as the visionary founding editor of New Literary History but his own theoretical essays appeared in such a scattering of publications that their conceptual originality underlying coherence and range of application have not been readily apparent This new selection of twenty essays many published here for the first time offers a synthesis of Cohen s vital work In these pages Cohen introduces change and continuity as essential modes of discourse in the study of literary behavior an approach that can produce reliable narratives of literary artistic and cultural change Here Cohen conceptualizes and develops a compelling innovative theory of genre that promotes a systematic study of historical change offering rewarding insights for twenty first century scholars

The Fiction of Rushdie, Barnes, Winterson and Carter Gregory J. Rubinson,2005-08-24 Literature often reflects societal change but it can also effect change by inspiring people to think in new ways Four authors who encourage readers to question traditional boundaries are Salman Rushdie Julian Barnes Jeanette Winterson and Angela Carter This book takes an in depth look at the works of these authors with specific emphasis on how they challenge religion especially in its fundamentalist forms and its intersections with history politics gender and sexuality The study notes both differences and similarities among the four authors whose writings broadly represent the major themes in contemporary British literature Divided into two primary sections the volume first takes a look at Rushdie and Barnes and their stance regarding historical and political issues The second section concentrates on gender and sexuality in the writings of Winterson and Carter Among the works examined are Rushdie s *The Satanic Verses* and *Midnight s Children* Barnes *Flaubert s Parrot* and *A History of the World in 10 1 2 Chapters* Winterson s *Boating for Beginners* and *Written on the Body* and Carter s *The Passion of New Eve* and *Heroes and Villains* The final chapter includes a brief survey of other significant figures in postmodern British literature including Martin Amis Ian McEwan D M Thomas Fay Weldon and Emma Tennant

Postmodern Studies ,2003 *Gender and Genre in Gertrude Stein* Franziska Gyax,1998-11-30 Gertrude Stein s works encompass a variety of genres She explicitly called many of her works plays operas or novels intending her works to be read with certain generic expectations in mind be it only to have them undermined Although many writers depart from generic norms Stein s generic transgressions are radical and are related to gender specific traits of her writing This work examines Stein s questions about gender hierarchies classifications and categories and brings to light the direct relationship

between gender and genre in her works Gyax looks at a number of Stein's texts including *Ida* *A Novel* *A Circular Play* *Everybody's Autobiography* *The Geographical History of America* and *Blood on the Dining Room Floor* which Stein called a detective story Readers bring to a text a set of expectations often relating to its genre A novel for example is expected to share certain features with other novels which is why it is not considered a play But these distinctions are difficult to make and writers often depart from generic conventions for the sake of being innovative Generic expectations also closely relate to gender For example an autobiography may be read in light of the gender of the author Like various genres gender brings with it certain expectations which are largely determined by social values Some individuals transgress the conventional bounds of gender roles just as some works of literature go beyond traditional generic frames The works of Gertrude Stein typically challenge the expectations of both gender and genre As a lesbian writer Stein was acutely aware of society's expectations with respect to gender And in her writings she is clearly concerned with genre She explicitly calls many of her works plays operas or novels intending them to be read with certain generic expectations in mind only to transgress traditional generic expectations Gyax explores why Stein was inevitably confronted with questions about gender and generic categories Including a number of Stein's theoretical statements about writing this insightful book illuminates the relationship between gender and genre in her works

Genre, 2000 **Vanguardia and Postmodern Fiction** Adrian Taylor Kane, 2006 **A World of Slavic Literatures** Edward Mozejko, 2002 *Telegenres* Jason Mittell, 2000 **Beyond Postmodernism in Hispanic Literature**, 2001 Postmodernist Culture Steven Connor, 1997-01-23 This 2nd edition of *Postmodernist Culture* considers the work of Lyotard and Jameson and the way modern theories are impinging on more areas of culture including the law music dance ecology technology ethnography and spatial theories **New Comparison**, 2000 **Critical Essays on American Postmodernism** Stanley Trachtenberg, 1995 *Tragedy and Tragic Theory* Richard H. Palmer, 1992-06-30 This book demonstrates that the definition of tragedy depends on the meaning perceived by an audience rather than on a structured stimulus independent of response WorldCat *Es*, 2004 **The (De-)Construction of Englishness and the Invention of National History in Julian Barnes' *England, England* (1998)** Sirinya Pakditawan, 2012-03-02 Seminar paper from the year 2004 in the subject English Language and Literature Studies Literature grade 1 University of Hamburg language English abstract Numerous contemporary British novels display an almost obsessive concern with the notion of Englishness Hence they focus on the myths traditions and attitudes that are regarded as typically English This is a subject which is also of central interest to recent literary criticism and cultural history at large Among the many novels that deal with a literary exploration of England's past its cultural memory and its national identity are such well known works as John Fowles *Daniel Martin* 1977 Jonathan Raban's travelogue *Coasting* 1986 Andrew Sinclair's *Albion* triptych including his novels *Gog* 1967 *Magog* 1972 and *King Ludd* 1988 Adam Thorpe's *Ulverton* 1992 Peter Ackroyd's *English Music* 1992 and Antonia S Byatt's and Graham Swift's novels These works can be regarded as a kind of echo

chamber of England's cultural history for they display deliberate Englishness 1 With its interest in Englishness the nature of historical truth and the blurring of boundaries between the authentic and the imitation Julian Barnes novel *England England* 1998 which was short listed for the Booker prize in 1998 shares important concerns with many contemporary British novels Like a host of other novels published after the 1960s *England England* focuses on the question of how much we can ever know about the past Hence this novel shows all the features characteristic of postmodernist historiographic metafiction That is to say like other historiographic metafictions *England England* is both intensely selfreflexive and yet paradoxically also lays claim to historical events and personages 2 What is more Barnes novel also reflects the feature which has been the major focus of attention in most of the critical work on postmodernism i e a self conscious assessment of the status and function of narrative in literature history and theory its theoretical self awareness of history and fiction as human constructs historiographic metafiction is made the grounds for its rethinking and reworking of the forms and contents of the past 3
