Postcode Wayne Swan,2005-01-01 This book is about the distribution of poverty and inequality in Australia It is well documented that one s postcode often determines whether one has access to resources or not and this book explores the growing polarisation of wealth and opportunity on one hand and poverty and disadvantage on the other **Home and Away** Dr. Stephen Burns,Clive Pearson,2013-01-11 Home and Away provides new vantage points in contextual theology An initial stream looks at the significance of postcodes as a way of mapping local areas as situations for pastoral ministry and theological reflection A second but not ancillary stream of essays considers the local within a range of glocal and global dynamics The essays do not unfold a single trajectory of thought about context and at various points they indirectly question and challenge each other The pieces meld into an international and ecumenical conversation about contemporary Christian ministry It includes voices from North America Europe and Austral Asia Although open ended and constantly crisscrossing questions from one context to another the collection is emphatic in its common conviction that attention to very local circumstance is crucial for Christian ministry just as are wider views of a locality s position in broader flows **Every Australian Counts** Michael Epis,Anita Phillips,2023-08-16 It is the most audacious and ambitious piece of social architecture since Medicare With its beginnings in the shadows of the global financial crisis the scheme succeeded against all odds How The NDIS came into being via a multi pronged campaign that turned politics upside down Instead of government making promises and persuading the people the opposite occurred Under the guiding hand of Bill Shorten and Jenny Macklin Labor brought together warring disability groups and gave them a platform to tell their stories The nation listened Canberra listened At the same time a team of the nation s most acute economic minds designed the machinery Their case persuaded the Productivity Commission building momentum that became unstoppable The creation of the National Disability Insurance Scheme is a political miracle a victory in the most difficult economic times where all previous efforts had failed It is a restoration of rights to those Australians who had been denied their fair go Every Australian Counts tells that story **The Bulletin** ,2006 **Critical Reflections on Australian Public Policy** John Wanna,2009-05-01 This collection of critical reflections on Australian public policy offers a valuable contribution to public discussion of important political and policy issues facing our nation and society These essays are important not only because of the reputation and position of the various contributors but because they are incredibly content rich and brimming with new ideas **Fault Lines Exposed** Scott Baum,Kevin O'Connor,Robert Stimson,2005 Social and economic change in Australia has resulted in the emergence of disparities in advantage and disadvantage between metropolitan communities and regional localities towns and cities This book uses up to date data to re analyse the patterns and consider policy issues that arise *Parliamentary Debates (Hansard)*. Australia. Parliament. House of Representatives,2005-05 Education, Change and Society Raewyn Connell,2007 Written in an engaging manner by Australia s leading sociology and education academics Education Change

and Society is written to assist students in their understanding of how and by what mechanisms contemporary education in Australia operates The broader issues concerning Australian society are examined in the context of educational institutions and policies promoting critical reflection and facilitating in depth analysis

Renaissance Nation David McWilliams, 2018-11-02 Renaissance Nation is the story of how the Pope's Children rewrote the rules for Ireland In four decades bookended by the visits of the pope in September 1979 and August 2018 Ireland has managed to become one of the wealthiest and most progressive nations in the world Here David McWilliams presents the story of modern Ireland and how once we threw off the shackles and replaced the torpor of collective dogma with the vibrancy of individual freedom the economy too started to motor Meet the everyman revolutionaries who made it all happen heroes like Sliotar Mom and Flat White Man Feel the pulse of the Radical Centre and celebrate the optimism of a tolerant accepting live and let live nation In a world where other nations are divided their economies stalled lurching to the extremes convulsed by existential fights pitting one part of the population against the other Renaissance Nation shows how a well off relatively chilled Ireland with a growing economy and surfing a wave of liberal optimism may not be perfect but it isn't a bad place to be A triumph of popular economics and social history this is the story of how almost without anyone noticing an insurgent middle class carried off something extraordinary a quiet revolution and with it reshaped our national destiny

Social Inequality in Australia Daphne Habibis, Maggie Walter, 2009 Social Inequality Australia at the Crossroads provides comprehensive coverage of the key dimensions of the nature and extent of inequality and difference in Australian society Incorporating debates about the effects of globalization on inequality and difference in Australia it also considers the role of culture in the social reproduction of hierarchy and difference Arguments about the nature of inequality are tested against empirical evidence and case studies in each chapter provide examples to aid understanding

Ordinary People's Politics Judith Brett, Anthony Moran, 2006 This book the result of many years of research and interviews reveals for the first time what ordinary Australians think about politics and politicians and what they consider are the key issues facing Australia today

Overland, 2006 **ThirdWay**, 1987-11 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture

The Parliamentary Debates (Hansard). Great Britain. Parliament. House of Lords, 2003

New Statesman, 1987 **The Good Fight** Wayne Swan, 2014-07-23 This is Wayne Swan's very personal account of an extraordinary period in Australian politics Despite the divisions within the Labor Party as the Rudd government fell into disunity and as Julia Gillard was undermined by disloyalty from within Wayne Swan steered the Australian economy through a time of unprecedented international economic challenges He tells how he nurtured an economy that was the envy of the world standing up to an opposition and a business elite who fought fiercely against Labor's political agenda In the face of bitter attacks by vested interests from the miners and banks to the hotels and clubs industry and of course the media much important nation changing legislation was wrangled through the parliament This is a story that can only be told from the

inside It provides unique access to the decision making of a government whose legacy of economic management and social change is still to be fully recognised
