Romantic Love and Sexual Behavior Victor C. De Munck,1998-04-16 Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated

Ballenger, 1999 Any teacher driven to despair by a stack of student research papers will find welcome inspiration in *Beyond Note Cards* Since the research paper first became a fixture in the composition classroom no other assignment has caused as much dread in students By putting it in historical context Ballenger offers new insight into the problems and promise of the research paper and practical advice on how to revive it *Beyond Note Cards* examines the best of the existing scholarship to offer a fresh theoretically sound approach to teaching the research paper Drawing on the recent movement to encourage inquiry based learning Ballenger argues that the spirit of inquiry should be at the heart of research paper instruction not the usual preoccupation with teaching the paper s formal qualities While Ballenger deals with theory his book is never dry Through case studies of his students and often revealing autobiographical anecdotes the author weaves a fascinating story about the evolution of the research paper historically and in his own classroom The book also contains many practical features including classroom tested exercises and assignments to help students become better researchers and research writers original survey information that instructors can use to discuss the assignment with their own students a special section on how to teach the double entry journal as part of a research assignment a helpful appendix that explores Internet research and new approaches to note taking *Beyond Note Cards* is an essential resource for instructors who are anxious to build connections between personal writing assignments and academic writing by highlighting the habits of mind that are present in both In addition teachers who already use Ballenger s popular student handbook *The Curious Researcher* Allyn Bacon will discover new ways to supplement it *Romantic Dialogue* Michael J. Beatty, 1986 *Women Together* Mona Holmlund, 1999 In 29 essays about extraordinary couples and 40 compelling duotone photos Holmlund and Warwick celebrate the profound power of commitment in lesbian relationships ***Friends and Lovers*** Marc Allen, 1985 ***Make More of Your Marriage*** Gary R.
