Red Guide Great Britain 2005:

The Edge of the Empire Bronwen Riley, 2016-05-03 AD 130 Rome is the dazzling heart of a vast empire and Hadrian its most complex and compelling ruler Faraway Britannia is one of the Romans most troublesome provinces here the sun is seldom seen and the atmosphere in the country is always gloomy What awaits the traveller to Britannia How will you get there What do you need to pack What language will you speak How does London compare to Rome Are there any tourist attractions And what dangers lurk behind Hadrian s new Wall Combining an extensive range of Greek and Latin sources with a sound understanding of archaeology Bronwen Riley describes an epic journey from Rome to Hadrian s Wall at the empire s northwestern frontier In this strikingly original history of Roman Britain she evokes the smells sounds colors and sensations of life in the second century

Materiality, Rules and Regulation Giovan Francesco Lanzara, Francois-Xavier de Vaujany, Nathalie Mitev, Anouk Mukherjee, 2016-02-20 Materiality Rules and Regulation New Trend in Management and Organization Studies concentrates on the relationship of rules and regulation to the materiality of artefacts practices and organizations It combines the recent scholarly interest on sociomateriality with a focus on regulation and rules

Forest Policies and Social Change in England Sylvie Nail, 2008-05-08 Forestry has been witness to some dramatic changes in recent years with several Western countries now moving away from the traditional model of regarding forests merely as sources of wood Rather these countries are increasingly recognizing their forests as multi purpose resources with roles which go far beyond simple economics In this innovative book Sylvie Nail uses England as a case study to explore the relationships between forests society and public

perceptions raising important questions about forest policy and management both now and in the future Adopting a sociological approach to forest policy and management the book discusses the current validity of the two principles underlying forestry since the Middle Ages first that forestry should only exist when no better use of the land can be made and second that forestry itself should be profitable The author stresses how values and perceptions shape policies and conversely how policies can modify perceptions and also how policies can fail if they do not take perceptions into account She concludes that many of the issues facing English forestry in the 21st century from leisure health and amenity provision through education and rural as well as urban regeneration to biodiversity conservation go well beyond both national borders and the scope of forestry Indeed forestry in the 21st century seems to be less about planting and managing trees than about being a vector and a mirror of social change This novel synthesis provides a valuable resource for advanced students and researchers from all areas of natural resource studies including those interested in social history socio economics cultural geography and environmental psychology as well as those studying landscape ecology environmental history policy analysis and natural resource management

Beating Them at Their Own Game Patrick West,2006 Beating Them at Their Own Game charts how Irish players managers and business people have come to have a disproportionate influence on soccer in the UK An entertaining survey of the growing prominence of Irish figures from the

post war period to the present day it chronicles the period of time in which soccer in Ireland has evolved from being derided as a foreign and essentially Anglo Saxon game that no true Irishman would play to a beloved sport that inspires almost religious following Not only have the Irish taken soccer to their heart they have taught the nation that gave the game the same nation that ruled them for 800 years how to play it From Pat Jennings to Martin O Neill Kevin Moran Frank Stapleton David O Leary Mick McCarthy to Niall Quinn and Roy and Robbie Keane in *Beating Them at Their Own Game* Patrick West documents how Irish players have in many ways changed and shaped English soccer over the last forty years Launched by former Republic Of Ireland manager Eoin Hand the book also deals with the success of Northern Irish players George Best Sammy McIlroy and Norman Whiteside the consummation of Ireland s ascendancy with their victory over England in the 1988 European Championships Tony Cascarino s admission that he is not Irish and the debates about how Irish the international team was and is and the way in which the favor has been returned with Jack Charlton and now Bobby Robson coaching the Irish side On another level it is a microcosm of how Ireland and Anglo Irish relations have changed in recent years how Ireland has become more multiracial and tolerant of foreign games and how the English have lost their ancient hostility towards the Irish and come to view them increasingly as allies and neighbors Although Patrick West is British he writes emphatically and flatteringly of his admiration of Irish sporting culture following a tradition of Bill Bryson on England and Pete McCarthy on Ireland Image courtesy of Fionnbar Callanan from his book *A Sporting Eye* [Index to Legal Periodicals & Books](#) ,2006 **Contemporary Authors New Revision Series** Amanda D.
