Underground

Microsoft's new PC program lets you explore the underground world of the city of London.

Microsoft's new PC program lets you explore the underground world of the city of London. The program is called "Underground" and is available for Windows 95 and Windows NT. It is a 3D simulation of the London Underground system, showing the tunnels, stations, and trains. The program is designed to be educational and entertaining, providing a virtual tour of the city's underground infrastructure. It includes a detailed map of the Underground system and a virtual train that can be controlled by the user. The program is available for purchase from Microsoft and is priced at \$49.95. It is a great way to learn about the history and operation of the London Underground.
