## **Planning Language Planning Inequality Language Policy In The Community:**

*Planning Language, Planning Inequality* James W. Tollefson, 1991 An examination of how an individual's native language can affect their lifestyle Topics covered range from maintenance of the mother tongue and second language learning to the ideology of language planning theory to education and language rights

**Planning language planning inequality** James W. Tollefson, 2000

**The Routledge Handbook of Language Revitalization** Leanne Hinton, Leena Huss, Gerald Roche, 2018-03-05 The Routledge Handbook of Language Revitalization is the first comprehensive overview of the language revitalization movement from the Arctic to the Amazon and across continents Featuring 47 contributions from a global range of top scholars in the field the handbook is divided into two parts the first of which expands on language revitalization issues of theory and practice while the second covers regional perspectives in an effort to globalize and decolonize the field The collection examines critical issues in language revitalization including language rights language and well being and language policy language in educational institutions and in the home new methodologies and venues for language learning and the roles of documentation literacies and the internet The volume also contains chapters on the kinds of language that are less often researched such as the revitalization of music of whistled languages and sign languages and how languages change when they are being revitalized The Routledge Handbook of Language Revitalization is the ideal resource for graduate students and researchers working in linguistic anthropology and language revitalization and endangerment

New Language Planning Newsletter , *From Creole to Standard* Roshni Mooneeram, 2009 Mooneeram gives a fascinating account of the unique history of the national language of Mauritius creole and the process of standardization that it is undergoing He focuses on the work of the author Dev Virahsawmy who through his Shakespeare translations is an active agent in the standardization of Mauritian creole

*Language Problems & Language Planning* , 2006 *Handbücher zur Sprach- und Kommunikationswissenschaft* Hans Goebel, Herbert Ernst Wiegand, 1996

**The Handbook of Linguistics** Mark Aronoff, Janie Rees-Miller, 2017-03-08 The first edition of this Handbook is built on surveys by well known figures from around the world and around the intellectual world reflecting several different theoretical predilections balancing coverage of enduring questions and important recent work Those strengths are now enhanced by adding new chapters and thoroughly revising almost all other chapters partly to reflect ways in which the field has changed in the intervening twenty years in some places radically The result is a magnificent volume that can be used for many purposes David W Lightfoot Georgetown University The Handbook of Linguistics Second Edition is a stupendous achievement Aronoff and Rees Miller have provided overviews of 29 subfields of linguistics each written by one of the leading researchers in that subfield and each impressively crafted in both style and content I know of no finer resource for anyone who would wish to be better informed on recent developments in linguistics Frederick J Newmeyer University of Washington University of British Columbia and Simon Fraser University Linguists their students colleagues family and friends anyone interested in the latest findings from a wide array of

linguistic subfields will welcome this second updated and expanded edition of *The Handbook of Linguistics*. Leading scholars provide highly accessible yet substantive introductions to their fields; it is an even more valuable resource than its predecessor. Sally McConnell Ginet, Cornell University. No handbook or text offers a more comprehensive contemporary overview of the field of linguistics in the twenty-first century. New and thoroughly updated chapters by prominent scholars on each topic and subfield make this a unique landmark publication. Walt Wolfram, North Carolina State University. This second edition of *The Handbook of Linguistics* provides an updated and timely overview of the field of linguistics. The editor's broad definition of the field ensures that the book may be read by those seeking a comprehensive introduction to the subject but with little or no prior knowledge of the area. Building on the popular first edition, *The Handbook of Linguistics, Second Edition* features new and revised content reflecting advances within the discipline. New chapters expand the already broad coverage of the Handbook to address and take account of key changes within the field in the intervening years. It explores psycholinguistics, linguistic anthropology, and ethnolinguistics, sociolinguistic theory, language variation, and second language pedagogy. With contributions from a global team of leading linguists, this comprehensive and accessible volume is the ideal resource for those engaged in study and work within the dynamic field of linguistics. **A Dictionary of Language**

**Planning Terms** August Dawid de Villiers Cluver, 1993. In the light of the present language situation and the debate on an appropriate language policy for South Africa, this concise dictionary of 164 language planning terms, with many references to important sources, fulfills a need at the right moment in time. This dictionary provides a very handy introduction to basic concepts, terminology, and sources on language planning. As an introduction to the field and as a source of reference, this book is highly recommended to anybody who is interested in or involved in the development of new language policies. *review in Lexikos 4*, 1994. *Linguistic Human Rights and Language Policy in the Kenyan Education System* Kembo Sure, Nathan Oyori Ogechi, 2008-12-31. This research is aimed at identifying the linguistic and pedagogical challenges experienced by teachers and pupils in Kenyan primary schools where English is used as the medium of instruction from Standard Four. Specifically, it is an analysis of classroom discourse in mathematics and science lessons conducted in English and to determine the extent to which language of instruction supports or hinders participation in these verbal exchanges. Language attitudes were also tested to elucidate whether Kenyans support the introduction of English as the medium of teaching in primary school and thereby establishing the acceptability of the language policy. The observation and recording of class lessons covered 26 Standard Four English, Science, and Mathematics lessons and 8 Standard Eight Science and Mathematics classes. **A Selected Bibliography on the Sociology of Language with the Emphasis on Sources on Language Planning in Africa** August Dawid de Villiers Cluver, 1996. This work aims to provide the most comprehensive bibliography in the domain of Sociolinguistics and in the field of language planning. The 640-page publication gives access to a large percentage of the published literature via a sophisticated thesaurus. As the title indicates, Africa and specifically southern Africa is covered in

great detail Sources on the history and development of the languages of Namibia and Zimbabwe have been included Apart from sources on the languages of Africa the bibliography also offers a comprehensive overview on topics such as language conflict language decline language development and language rights as well as a section on translations and interpreting The categorisation of sources is intended to stimulate researchers and postgraduate students and this makes the bibliography an indispensable tool for librarians and senior academics

Decolonisation, Globalisation Angel Lin, Peter W. Martin, 2005 This volume brings together scholars from around the world to juxtapose the voices of classroom participants alongside the voices of ruling elites with the aim of critically linking language policy issues with classroom practice in a range of contexts The volume is suitable for postgraduate students researchers and educators in a range of areas

*Language Policies in English-dominant Countries* Michael L. Herriman, Barbara Burnaby, 1996 This book analyses policy development in six countries where because of its association with colonial expansion English has become the dominant language and hence the language of power government and civil commerce often replacing other local languages

English Language and Literature Mompoloki Mmangaka Bagwasi, Modupe Moyosore Alimi, Patrick Ebewo, 2008 English Language and Literature Cross Cultural Currents is a collection of essays that interrogate the precarious positions of English and African languages in an era in which English is increasingly becoming the dominant language in Africa while at the same time there is a growing resistance against it Though many Africans take pride in their own cultural heritage that is expressed by their African languages they require the economic and social benefits of English The book presents a language dilemma in which both African languages and English enhance inhibit and influence each other The data used by the authors spans a broad spectrum of sources including fiction courts parliamentary Hansards House of Chiefs classrooms internet roads and bus ranks Thus it is reflective of the most and least educated the most and least influential Africans The presentations provide broad insights about African symbols metaphors imagery and folklores representing undocumented literature that challenge scientific imperialism and deficit theories The diversity and freshness of the ideas in the book stem from the unique blend of the background of the contributors English language and literature teachers teachers of African languages educationalists sociologists historians and politicians Thus the book is a valuable asset to scholars in linguistics anthropology and language policy makers
