## **Post Structuralism And The Question Of History:**

**Post-Structuralism and the Question of History** Derek Attridge, Geoff Bennington, Robert Young, 1987 Recent developments in literary theory such as structuralism and deconstruction have come under attack for neglecting history while historically based approaches have been criticized for failing to take account of the problems inherent in their methodological foundations This collection of essays is unique in that it focuses on the relation between post structuralism and historical especially Marxist literary theory and criticism The volume includes a deconstructive reading of Marx essays that relate history to the philosophical and institutional context and a number of studies of particular texts literary and non literary which pose the question of history and literary theory with particular force *Poststructuralism and Critical Theory's Second Generation* Alan D. Schrift, 2014-09-11 Poststructuralism and Critical Theory's Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory **The History of Continental Philosophy** Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant's philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates

about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike
