 protest art along with reflections on artistic antecedents global protest movements and the long shadow cast by Chile s
 authoritarian past From October 2019 until the COVID 19 lockdown in March 2020 Chile was convulsed by protests and
 political upheaval as what began as civil disobedience transformed into a vast resistance movement Throughout the most
 striking aspects of the protests were the murals graffiti and other political graphics that became ubiquitous in Chilean cities
 Authors Terri Gordon Zolov and Eric Zolov were in Santiago to witness and document the protests from their very beginning
 The book is beautifully illustrated with over 150 photographs taken throughout the protests Additional photos will be
 available on the publisher s website From the introduction In the conclusion we take stock of the crisis of the nation state in
 the contemporary era This chapter brings events into the present moment noting the ways President Pi era took advantage of
 the COVID 19 pandemic to reclaim the streets of Santiago a phenomenon echoed in countries across the globe While most of
 the global protest movements were forced to go underground or into the ether the Black Lives Matter movement surged in
 the United States and drew massive amounts of support both domestically and abroad suggesting a continued wave of
 grassroots protests We close with reflections on the continued relevance of walls in a virtual world the testimonial role that
 protest graphics play and the future outlook for revolutionary movements in Chile and worldwide *CORPORATE PROFILE*
