Buildings Every Architect Should Understand Simon Unwin, 2023-11-03 The underlying theme of Twenty Five Buildings

Every Architect Should Understand is the relationship of architecture to the human being how it frames our lives and

orchestrates our experience how it can help us make sense of the world and contribute to our sense of identity and place

Exploring these dimensions through a wide range of case studies that illustrate the rich diversity of twentieth and twenty

first century architecture this book is essential reading for every architect With the addition of numerous shorter analyses

this new edition covers an even greater range of architectural ideas providing students and architects with further

inspiration for exploration in their own design work Architects live by ideas But where do they come from And how do they

shape buildings There is no one right way to do architecture This book illustrates many Its aim is to explore the rich diversity

of architectural creativity by analysing a wide range of examples to extract the ideas behind them Twenty Five Buildings

Every Architect Should Understand is a companion to Simon Unwin s *Analysing Architecture the Universal Language of Place*

Making most recent edition 2021 and part of the trilogy which also includes his *Exercises in Architecture Learning to Think*

as an Architect second edition 2022 Together the three books offer an introduction to the workings of architecture providing

for the three aspects of learning theory examples and practice Twenty Five Buildings focusses on analysing examples using

the methodology offered by *Analysing Architecture* which operates primarily through the medium of drawing An underlying

theme of Twenty Five Buildings Every Architect Should Understand is the relationship of architecture to the human being

how it frames our lives and orchestrates our experiences how it can help us give form to the world and contributes to our

senses of identity and place Exploring these dimensions through case studies that illustrate the rich diversity of twentieth

and twenty first century architecture this book is essential reading and hopefully an inspiration for every architect In this new edition supplementary analysis and discussion has been added to each of the twenty five case studies drawing attention to their influences from and on other architects A number of extra shorter analyses have been included too following the practice of presenting extra small dishes interspersed among main courses in high end restaurants These additional short analyses account for the sign after Twenty Five in the title of this edition and double the number of buildings analysed to around fifty
