Postmortem Maurice Kilwein Guevara,1994 Exploring the realities of the Americas North and South the poems of Postmortem follow the fortunes of a young Colombian immigrant to Pittsburgh University of Georgia Press Maurice Kilwein Guevara s poems are an intriguing blend of beauty and horror They are heartfelt spells against sorrow that often break into lyrical celebrations of joy and hope Judith Ortis Cofer *Romantic Autopsy* Arden Hegele,2022 This book considers a moment at the turn of the nineteenth century when literature and medicine seemed embattled in rivalry to find the fields collaborating to develop interpretive analogies that saw literary texts as organic bodies and anatomical features as legible texts *Autopsy* Donte Collins,2020-07-06 Written after the death of his mother Donte Collins s *Autopsy* establishes the poet as one of the most important voices in the next generation of American poetry As the book unfolds the reader journeys alongside the author through grief and healing Named the Most Promising Young Poet in the country by the Academy of American Poets Collins s work has consistently wowed audiences *Autopsy* propels that work onto the national stage In the words of the author the book is a spring thaw the new life alongside the old the good cry and the release after

**Post-Augustan Poetry from Seneca to Juvenal** Harold Edgeworth Butler,1909 *Encyclopedia of Post-Colonial Literatures in English* Eugene Benson,L.W. Conolly,2004-11-30 Post Colonial Literatures in English together with English Literature and American Literature form one of the three major groupings of literature in English and as such are widely studied around the world Their significance derives from the richness and variety of experience which they reflect In three volumes this Encyclopedia documents the history and development of this body of work and includes original research relating to the literatures of some 50 countries and territories In more than 1 600 entries written by more than 600 internationally recognized scholars it explores the effect of the colonial and post colonial experience on literatures in English worldwide *Post-Koiné: Studies of Non-Anthropocentric (Poetic) Languages* Anita Jarzyna,2025-09-25 In this book you will come across an authorial formula of extrahuman community and communication The formula includes languages polemical with the narrow model of community that often excludes certain human and non human beings Alternative languages are sensitive to the codes of violence directed against animals so as to inclusively create a new interspecies non antagonistic collectivity What especially seeks such alternative languages is poetry It not only represents the true character of existing relationships with animals or determines their shape but also can interfere in them suspend the control of logocentric order and as a result reduce the ambiguous human guardianship over animals that in turn requires the verification and questioning of the guardianship s position in language This publication treats Polish poetry as a statement equal with if not precursory for the discursive calls for the abolition of anthropocentric dominance The book proves that critical reflection on the language that consolidates the community redefines our attitude toward animals *Anatomical Forms* Whitney Sperrazza,2025-06-10 Demonstrates how early modern women writers such as Margaret Cavendish and Hester Pulter wielded poetics as a tool for

scientific work Anatomical Forms excavates the shared material practices of women's poetic work and anatomical study in early modern England Asserting that poetry is a dimensional technology Whitney Sperrazza demonstrates how women writers wielded poetics as a tool for scientific work in order to explore and challenge rapid developments in anatomy and physiology In the sixteenth and seventeenth centuries anatomists were actively exploring the best ways to represent bodies in texts to translate the work of the dissection room into the pages of books When we recognize Renaissance anatomy as fundamentally a book making project Sperrazza insists we find a complex and expansive history of anatomy in the pages of women's poetry Women poets have long been absent from histories of literature and science but by shifting our focus from content to form Sperrazza reveals complex engagements with questions on corpse preservation dissection obstetrics and gynecology and skin theory in the poetry of Margaret Cavendish Aemilia Lanyer Mary Wroth Mary Sidney Herbert and Hester Pulter Through close formal analysis and original research on early modern anatomy treatises Anatomical Forms weaves together critical conversations in poetics book history the history of science and women's writing Sperrazza challenges her readers to imagine science differently to understand that science might not always look like we expect it to look and in the process brings into focus a feminist history of poetic form centered on material practice

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
