Short Term Dynamic Psychotherapy Evaluation And Technique:

Short- Term Dynamic Psychotherapy Peter E. Sifneos,1979 Short-Term Dynamic Psychotherapy P. E. Sifneos,2013-12-01 Short term psychotherapy although brief is not ephemeral In the decade or two of its existence it has grown into a sturdy tree and a sign of its maturity is the fact that it is now the subject of an increasing number of overview articles summarizing its literature and findings Yet it remains a young and vigorous discipline Its pioneers have not been elevated to a pantheon of venerable but mute immortals on the contrary they are to be found at the forefront of the field actively contributing to the development of its theory and practice This volume is ample testimony to their continued creativity Dr Sifneos has lectured and written extensively about short term anxiety provoking psychotherapy STAPP Based on psychoanalytic principles STAPP aims to resolve pathological psychic conflicts and help those suffering from them to learn new ways of being in their most intimate relationships It does so by actively focusing the patients sights on their Oedipal problems and its effectiveness given a proper selection of subjects by specific criteria has been amply documented in controlled clinical studies **Short- Term Dynamic Psychotherapy** Peter E. Sifneos,1979 Intensive Short-Term Dynamic Psychotherapy Patricia C. Della Selva,2018-05-08 Traditionally psychoanalytic treatment has been a lengthy endeavour requiring a long term commitment from patient and analyst as well as vast financial resources More recently short term approaches to psychoanalytic treatment have proliferated One of the most well known and thoroughly studied is the groundbreaking method of Intensive Short term Dynamic Psychotherapy developed by Dr Habib Davanloo Having trained directly with Dr Davenloo the author has written a clear concise outline of the method that has come to be regarded as a classic in the field The book is organised in a systematic fashion analogous to the process of therapy itself from initial contact through to termination and follow up Detailed clinical examples are presented throughout the text to illustrate how theory is translated into techniques of unparalleled power and effectiveness *Formulation in Action* David Dawson,Nima Moghaddam,2016-01-29 When people seek psychological support formulation is the theory driven methodology used by many practitioners to guide identification of the processes mechanisms and patterns of behaviour that appear to be contributing to the presenting difficulties However the process of formulating or applying psychological theory to practice can often seem unclear In this volume we present multiple demonstrations of formulation in action written by applied psychologists embedded in clinical training research and practice The volume covers a range of contemporary approaches to formulation and therapy that have not been considered in extant works and includes unique sections offering critical counter perspectives and commentaries on each approach and its application by authors working from alternative theoretical positions *Basic Principles and Techniques in Short-term Dynamic Psychotherapy* Habib Davanloo,1978 *Theory and Practice of Brief Therapy* Simon H. Budman,Alan S. Gurman,2016-03-14 This classic work provides a richly textured overview of the whys and hows of brief therapy The authors identify the central features of effective time limited interventions for

individuals couples families and groups Taking a developmental approach to treatment they explain how brief therapy can help at different times in a patient s life as changes and transitions bring on new stresses and challenges A practical framework is provided for selecting and screening patients rapidly finding a focus for clinical work and making optimal use of available time Case examples and extensive transcripts are included to illustrate the use of strategies and techniques drawn from many different psychotherapy perspectives Throughout the focus is on creative and efficient ways to help patients build on existing strengths and make desired changes in their interactions with others *Models of Brief Psychodynamic Therapy* C. Seth Warren,1998-01-02 This practical and scholarly new text presents a comprehensive review and evaluation of the theory research and practice of psychodynamically oriented brief psychotherapy It offers in depth discussions of the major clinical and theoretical approaches as well as examinations of other special topics in the application of brief therapy Locating brief psychodynamic therapies within larger contexts Stanley B Messer and C Seth Warren illuminate the impact of psychoanalytic ideas and theories as well as cultural historical and intellectual trends on each approach *American Journal of Psychotherapy* ,1947 **The Handbook of Adult Clinical Psychology** Alan Carr,Muireann McNulty,2016-03-31 The second edition of the Handbook of Adult Clinical Psychology An Evidence Based Practice Approach like its predecessor provides clinical psychologists in training with a comprehensive practice handbook to help build the skills necessary to complete a clinical placement in the field of adult mental health While practical in orientation the book is based solidly on empirical evidence Building on the success of the previous edition this handbook has been extensively revised in a number of ways Throughout the book the text references and website addresses and have been updated to reflect important developments since the publication the first edition Recent research findings on the epidemiology aetiology course outcome assessment and treatment of all psychological problems considered in this volume have been incorporated into the text Account has been taken of changes in the diagnosis and classification of psychological problems reflected in the DSM 5 Chapters on ADHD in adults emotion focused therapy radically open dialectical behaviour therapy and schema therapy have been added The book is divided into 6 sections Section 1 covers conceptual frameworks for practice lifespan development classification and epidemiology CBT psychodynamic emotion focused systemic and bio medical models and general assessment procedures Section 2 deals with mood problems depression bipolar disorder suicide risk and anger management Section 3 focuses on anxiety problems social phobia generalized anxiety disorder panic disorder obsessive compulsive disorder post traumatic stress disorder and depersonalization disorder Section 4 deals with psychological problems linked to physical health health anxiety somatization chronic pain adjustment to cancer and eating disorders Section 5 focuses on other significant psychological problems that come to the attention of clinical psychologist in adult mental health services ADHD in adults alcohol and other drug problems psychosis and psychological problems in older adults Section 6 contains chapters on therapeutic approaches to psychological distress related to complex childhood trauma dialectical behaviour

therapy for borderline personality disorder racially open dialectical behaviour for over controlled presentations and schema therapy Each of the chapters on clinical problems explains how to assess and treat the condition in an evidence based way with reference to case material Interventions from cognitive behavioural psychodynamic interpersonal systemic and biomedical approaches are described where there is evidence that they are effective for the problem in question Skill building exercises and further reading for psychologists and patients are included at the end of each chapter This book is one of a set of three volumes which cover the lion s share of the curriculum for clinical psychologists in training in the UK and Ireland The other two volumes are the Handbook of Child and Adolescent Clinical Psychology Third Edition by Alan Carr and the Handbook of Intellectual Disability and Clinical Psychology Practice Second Edition edited by Alan Carr Christine Linehan Gary O Reilly Patricia Noonan Walsh John McEvoy

Handbook of the Brief Psychotherapies Richard A. Wells,Vincent J. Giannetti,2013-11-22 The last two decades have seen unprecedented increases in health care costs and at the same time encouraging progress in psychotherapy research On the one hand accountability cost effectiveness and efficiency have now become commonplace terms for providers of mental health services whereas on the other hand an increasingly voluminous literature has emerged supporting the effectiveness of a number of types of psychotherapies There now exists the possibility for the design and delivery of mental health services that drawing upon this literature more closely approximate empirically established data concerning the appropriateness and effectiveness of psychotherapy The Handbook of the Brief Psychotherapies is intended to capture one major thrust of this movement the development of a group of empirically grounded time limited therapies all sharing a common interest in the clinical utilization of a structured focus and an emphasis on time and action For many years professional self interest competing theoretical para digms and the vagaries of practice wisdom and clinical myth have influenced the practice of psychotherapy A critical questioning of the resulting predomi nantly nondirective open ended and global therapies has led to a growing emphasis on action oriented problem focused time limited therapies Yet ironically this interest in the brief psychotherapies has not so much involved a radical departure from traditional therapeutic modalities as it has emphasized a new pragmatism about how time action and structure operate in life as well as in therapy
