where the emphasis lies on cultural products in the direction of more dynamic models where the emphasis lies instead on the cultural and social processes involved in the ongoing production of shared views of the past and secondly the growing interest in the role of the media and their role beyond that of mere storage within these dynamics The specific concern of this collection is linking the use of media to the larger socio cultural processes involved in collective memory making The focus rests in particular on two aspects of media use the basic dynamics of mediation and remediation The key questions are What role do media play in the production and circulation of cultural memories How do mediation remediation and intermediality shape objects and acts of cultural remembrance How can new emergent media redefine or transform what is collectively remembered The essays of this collection focus on social historical religious and artistic media memories The authors analyze the memory making impact of news media the mediation and remediation of lieux de m moire the medial representation of colonial and postcolonial of Holocaust and Second World War memories and finally the problematization of these very processes in artistic media forms such as novels and movies

Memoirs of the family of Bullock of Berkshire, Essex and other counties, by Ll. C.W.B. Llewellyn Christopher Watson BULLOCK,1905 **Memoirs of Constant** Louis Constant Wairy,1895 **Memoirs of Constant** Constant,Louis Constant Wairy,1895 **Ned Kelly as Memory Dispositif** Laura Basu,2012-12-06

Nineteenth century outlaw Ned Kelly is perhaps Australia s most famous historical figure Ever since he went on the run in 1878 his story has been repeated time and again in every conceivable medium Although the value of his memory has been hotly contested and arguably because of this he remains perhaps the main national icon of Australia Kelly s flamboyant crimes turned him into a popular hero for many Australians during his lifetime and far beyond a symbol of freedom anti authoritarianism anti imperialism a Robin Hood a Jesse James a Che Guevara Others have portrayed him as a villain a gangster a terrorist His latest incarnation has been as WikiLeaks founder and fellow Australian cyber outlaw Julian Assange Despite the huge number of representations of Kelly from rampant newspaper reporting of the events to the iconic Sidney Nolan paintings to a movie starring Mick Jagger to contemporary urban street art this is the first work to take this corpus of material itself as a subject of analysis The fascinating case of this young outlaw provides an important opportunity to further our understanding of the dynamics of cultural memory The book explains the processes by which the cultural memory of Ned Kelly was made and has developed over time and how it has related to formations and negotiations of national identity It breaks new ground in memory studies in the first place by showing that cultural memories are formed and develop through tangles of relations what Basu terms memory dispositifs In introducing the concept of the memory dispositif this volume brings together and develops the work of Foucault Deleuze and Agamben on the dispositif along with relevant concepts from the field of memory studies such as allochronism colonial aphasia and multidirectionality the memory site especially as developed by Ann Rigney and Jan Assmann s figure of memory Secondly this work makes important headway in our understanding of the relationships between cultural memory and national identity at a time when matters of identity

appear to be more urgent and fraught than ever In doing so it shows that national identities are never purely national but are always sub and transnational The Ned Kelly memory dispositif has made complex and conflicting contributions to constructions of national identity Ever since his outlawry the identities invested in Kelly and those invested in the Australian nation have in a two way dynamic fused into and strengthened each other so that Kelly is in many ways a symbol for the national identity Kelly has come to stand for an anti establishment working class subaltern Irish inflected national identity At the same time he has come to represent and enforce the whiteness hyper heterosexual masculinity and violence of Australianness Basu shows that Kelly has therefore always functioned in both radical and conservative ways often both at once a turbulent Janus faced figure
