Privatization Azizul Islam, Carolina Monsalve, United Nations. Economic and Social Commission for Asia and the Pacific, 2001 Privatisation has emerged as a major policy issue for most developing countries in recent years as part of the economic reform agenda for structural adjustment programmes that embrace free trade financial liberalisation and a reduction of state involvement in the economy This book reviews research into the impact of privatisation on economic efficiency employment equity and the government budget and seeks to identify the preconditions required in order to achieve effective privatisation policies

Public Management: Reforming public management Stephen P. Osborne, 2002 *Readings on Privatisation* Eze Onyekpere, 2003 This publication contains an array of papers from those that are uncritically supportive to the sceptical and to papers that disagree with the entire process The attempt is to stimulate further debate and enquiry that will help in creating the awareness necessary for holding the privatising authorities accountable to the people Foreword

Privatization in Development François Bourguignon, 2009 Reviews the main theories of state versus private ownership and empirical evidence on the impact of privatization in developing countries including transition economies Shows that there is a need to fully evaluate the ex ante and ex post impacts of privatization the most effective types of regulation and ownership regimes and the way in which losers when there are any can be compensated Competition Privatisation & Reforms Poonam Mittal, Shahid Ashraf, 2006 Privatization in Development Fran??ois Bourguignon, Claudia Sepulveda, 2012 This paper briefly reviews the main theories of state versus private ownership and empirical evidence on the impact of privatization in developing countries including transition economies The paper draws some lessons for policy and offers some suggestions on how to assess privatization at least in countries where there is still scope for it The paper suggests that although understanding of the efficiency gains of privatization has increased significantly in recent years there is an important area about which little is known the distributional effects of privatization Whether arguing from the

standpoint of welfare economics or political economy distributional effects are critical to the outcome or the perceived outcome of privatization Thus there is a need to fully evaluate the ex ante and ex post impacts of privatization the most effective types of regulation and ownership regimes and the way in which losers when there are any can be compensated This is a need that must be met by academics and development agencies including the World Bank and regional development banks Privatisation ,1992 *Index of Publications & Guide to Information Products and Services* World Bank,1993 The Impact of Privatisation Stephen Martin,David Parker,1997 The penultimate chapter discusses the restructuring that has followed each company s move into the private sector and the final chapter summarises the results **Bayero Business Review** ,2003 Asia-Pacific Development Journal ,1994 Confronting Twenty-first Century Challenges Ruth Mukama,Murindwa Rutanga,2005 **Journal of Park and Recreation Administration** ,2001
