Special Features It is the only one of its kind because no other book offers solutions to all of Irodov's problems. 1052 The nearest competitor by DB Singh has missed many problems. Further experts find that solutions given in this book are tedious and Abhay Kumar Singh's solutions are crisper. The third edition builds on the success of earlier editions in terms of sales and the accuracy of solutions. The author is respected and experienced. His name is synonymous with Irodov solutions among IIT JEE aspirants. There are many new alternate as well as modified solutions which are crisper in addition to better diagrams which are more accurate. The figures are better in quality because they are digitally printed. The earlier editions had hand drawn figures. The shortcomings of the previous editions have now been eliminated. Irodov's problems are the most exhaustive test of a student's understanding of concepts because they sometimes use more than 1 or 2 concepts in the same problem which is not the case with ordinary numerical problems.
