Image and Video Retrieval Wee-Kheng Leow, Michael S. Lew, Tat-Seng Chua, Wei-Ying Ma, Lekha Chaisorn, Erwin M. Bakker, 2007-05-22 It was our great pleasure to host the 4th International Conference on Image and Video Retrieval CIVR at the National University of Singapore on 20-22 July 2005. CIVR aims to provide an international forum for the discussion of research challenges and exchange of ideas among researchers and practitioners in image video retrieval technologies. It addresses innovative research in the broad field of image and video retrieval. A unique feature of this conference is the high level of participation by researchers from both academia and industry. Another unique feature of CIVR this year was in its format: it offered both the traditional oral presentation sessions as well as the short presentation cum poster sessions. The latter provided an informal alternative forum for animated discussions and exchanges of ideas among the participants. We are pleased to note that interest in CIVR has grown over the years. The number of submissions has steadily increased from 82 in 2002 to 119 in 2003 and 125 in 2004. This year we received 128 submissions from the international communities with 81 (63%) from Asia and Australia, 25 (19.5%) from Europe and 22 (17.2%) from North America. After a rigorous review process, 20 papers were accepted for oral presentations and 42 papers were accepted for poster presentations. In addition to the accepted submitted papers, the program also included 4 invited papers, 1 keynote industrial paper and 4 invited industrial papers. Altogether we offered a diverse and interesting program addressing the current interests and future trends in this area.

Memory David Samuel, 1999-09 Draws on decades of scientific research to overview how memory has been investigated in the past and what modern studies of brain structure and function can tell us about it. Discusses long and short term memory and working memory, the limits to and normal loss of memory, the effects of drugs and anxiety on memory, and research into Alzheimer's disease. For general readers. The author is a professor of physical chemistry in the department of neurobiology at the Weizmann Institute of Science, Israel.
