*Simplicity* Daniel Vincent, 2017-04-15 For every action there is an equal and opposite reaction Newton's 3rd Law of Relativity We are currently seeing a strong trend towards simplification and downsizing of our lives after years of materialistic living Perhaps it was the downward spiral of the economy in the early 21st century that caused this equal and opposing reaction Or maybe it is coming about simply because we are wising up that having a lot of stuff doesn't make us happy In fact it does the opposite It jams up our happiness factor It clutters our homes and minds You don't have to be invited to star on *Hoarders* to question the amount of stuff you are hanging onto Too much stuff becomes clutter when it gets in your way in the way of understanding your finances in the way of locating important computer files or literally in the way as you trip over stuff when you get up in the middle of the night So you'd like to simplify your life But where should you start Some people never get started because they are overwhelmed by all of the excess in their lives Everywhere they turn is more stuff in their inbox in their computer files in their closets everywhere But you have already started the process of simplifying your life by picking up this book In it you will find lots of practical suggestions of ways you can make life simpler and less cluttered
